

Admissions Office / service des admissions

## **Important notes that may affect your registration:**

In light of registration limitations for some courses, priority in registration has been assigned by:

1. Proximity to graduation in terms of remaining credit requirements
2. Major or Honours students in the department, program or concentration
3. Students declaring a minor in the department, program or concentration
4. All other degree and certificate candidate students
5. General interest students

**Every effort will be made to accommodate students in the courses of their choice, but this may not always be possible.**

Registrations are accepted on a provisional basis until verification can be made that the registration complies with any restrictions required by the student's academic or financial situation. If there is a problem, the student will be informed as soon as possible.

### Full-Time Student Status

Minimum course load = 12 credits\*

Standard course load = 15 credits\*

Maximum course load = 18 credits\*

\* Not including lab credits but including EWP 099 and/or ESL courses

A full time student who wishes to register in more than the 18 credit maximum must obtain the **specific written permission** from the appropriate Dean on their registration form.
