

College Transfer Guide

Revised: 2014

Introduction

Students who complete a college program at one of the Canadian colleges with which Bishop's University has an active articulation agreement may be eligible for advanced standing credit upon admission to Bishop's University depending upon their college program studied, graduating average, and university program applied to. Details on active articulation agreements are found below.

Important background information:

- Bachelor's degrees at Bishop's University are 120-credits, generally requiring four years to complete.
- A maximum of 60 credits may be granted towards a 120-credit degree program
- No advanced credit will be granted for incomplete college programs or for programs completed with a GPA lower than the standards cited in the articulation agreements
- A change of university program may involve review and revision of advanced credits awarded
