

## **How to Register for Courses**

- Click on "Self-Service Home" found in the right hand corner.

**Step 2:** View Schedule to see the courses (if any) into which you've been pre-registered. Note: do not forget to select the appropriate period

**Step 3:** Choose courses to complete your schedule (remember a normal course load is five 3-credit courses plus any associated labs).

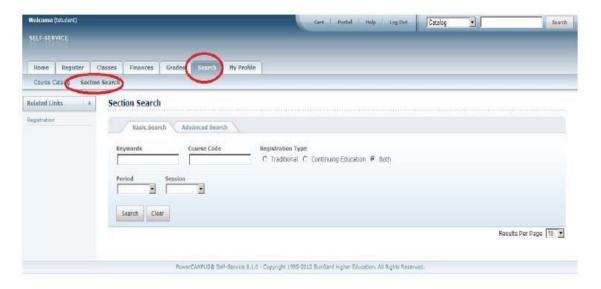

- Consult the timetable to select your desired elective course(s)
- · Click on the Register Tab · Online Registration; select the 2019 / Fall period

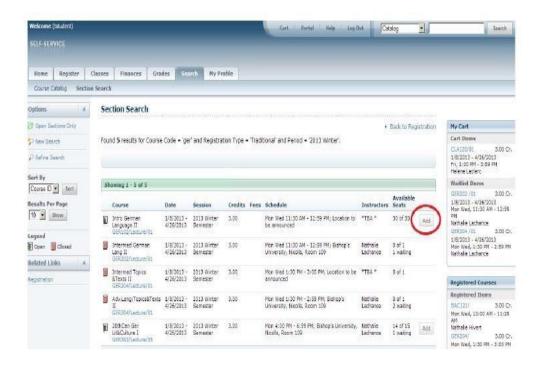

## Step 4: Add desired course(s)

• Click on Section Search and look up the desired course (consult the timetable to know all the course offerings for the upcoming semester)

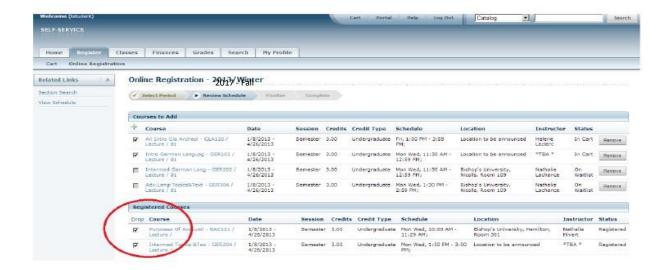

Select desired section and add to cart

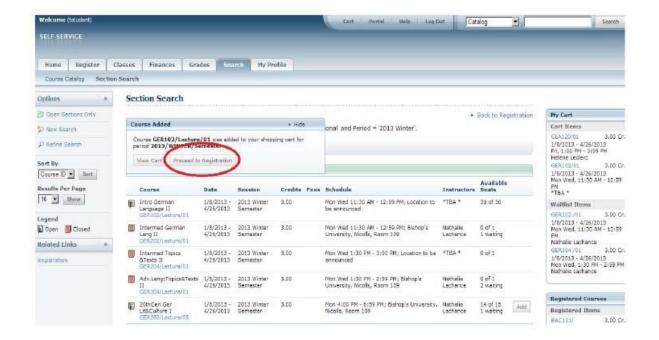

## Stop, Read, Click.

\*\*Do <u>not</u> click on every check box. Under the "Registered Courses" header in the registration tab if you "check" those boxes you will be <u>dropped</u> from those selected courses. If selecting courses under the "Registered Courses" header, be sure you wish to drop those courses. Note that no warning message will appear.\*\*

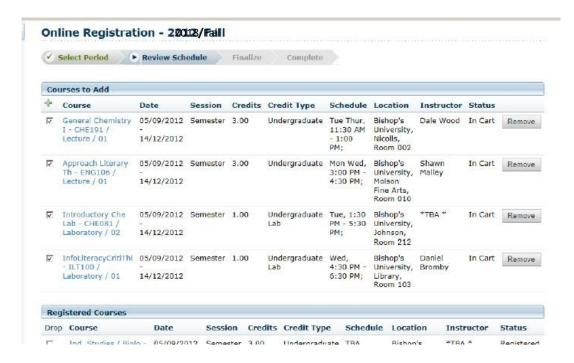

• Once added you may view your cart (and continue adding courses) or proceed with registration.

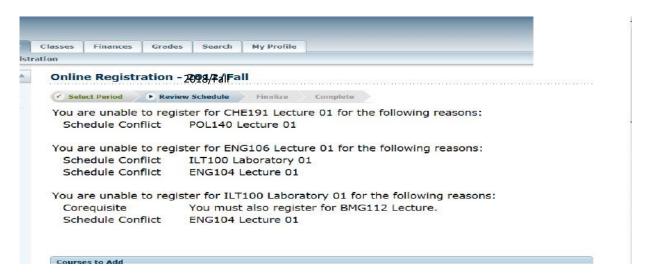

**Step 5:** Once you are satisfied with your course selection proceed to registration.

\* Click Proceed to Registration and verify you have selected your desired course(s). At this point you may still add/ drop courses modifying your schedule. If you are satisfied with your schedule click "next".

**Step 6:** The system will verify prerequisites and identify any schedule conflicts. Adjust your selected courses if necessary.

**Step 7:** Once you are satisfied with your schedule press "next" and the registration process is complete.

**Step 8:** You have completed the registration process!
