Bishop's '48

The Year Book of the
University of Bishop's College
The Right Honourable Louis St. Laurent, P.C., M.P.

The Secretary of State for External Affairs,
who has graciously accepted dedication of this volume.
Ottawa, February 5th, 1948.

I am honored by the invitation to address a few words through the Year Book to the graduating men and women of Bishop's.

With the achievement of this milestone, you now move forward into a broader and more complex life. To be graduating from an institution such as yours would be a high privilege - and an equally high responsibility - at any time; it is especially so today when humanity's need of trained intelligence seems greater than at any previous point in history.

The crucial task of this age is to establish a basis for genuine and permanent world peace. Despite the enormous difficulties and harrowing frustrations, neither nations nor individuals can afford to dissociate themselves from this urgent endeavour; for failure in it must lead to chaos and destruction on an unthinkable scale.

Few nations have a greater stake in the outcome than Canada. Our fortunes in every field are closely linked with those of our world neighbours. The future of our nation and her hopes of prosperous growth demand an increasingly active interest in international affairs. Thus the horizons of Canadian citizenship continue to expand, particularly for those who have enjoyed special opportunities of equipping themselves for citizenship.

With reason and good will, mankind now has the means of realizing the brightest epoch ever known; but without them no better prospect than constant danger and possible disaster. That is the choice. At least there is no uncertainty as to the measure of our obligation, or the direction in which it lies.

[Signature]

M.A., D.C.L., LL.D., D.D.
Priest

Principal and Vice-Chancellor
1922-1947
Requiescat in pace et illuminet eum lux aeterna

The tragedy of the death of Dr. A. H. McGreer in no way detracts from the lustre that was his life.

The shock of his disappearance numbed his many friends and admirers, whose number overflowed the borders of the University to stretch from Canada to Britain.

For twenty-five years as Principal of the University of Bishop’s College, Dr. McGreer followed the path of service, and devoted outstanding ability and energy helping to develop and train the young men of this country. He succeeded well, and had the joy of knowing that many of the men who passed through his hands later filled important posts both in the religious and lay life of Canada.

Arthur McGreer himself was a happy mixture of cleric and layman. He had been tempered in the fires of the first world war. As a young padre he won the Military Cross for distinction in the field, and was Mentioned in Despatches. He never forgot those associations of the war years, and his clerical background was broadened by his deep understanding of the lay mind.

Next to his God the consuming driving force of Arthur McGreer’s life was his love of Bishop’s. Nobody who has not been closely associated with him as a student at the college can fully appreciate his love of, and enthusiasm for, that institution. Sometimes dictatorial, sometimes impatient of the opinions of others and sometimes hasty in his decisions, he nevertheless always was motivated by one, all important desire—the development and welfare of Bishop’s.

He regarded the college not only as an institution of formal learning, but as a spirit which had taken form in the old, ivy-covered walls of the residence, and reached its quintessence in lovely St. Mark’s Chapel. To him the college represented opportunity for Eastern Townships’ men and women. A chance to develop in character, tolerance, learning and above all in the art of living. To Dr. McGreer the success of the football team was at least as important as examination results.

Those who knew him intimately realized the loss of his wife was a telling blow, from which he never completely recovered. But nevertheless he went on with his work, and saw the internal organization of the university carried through along lines more in keeping with modern needs.

On the very day of his disappearance, plagued with pain and physical weakness from a severe cut on his head as the result of a fall on the ice a few days earlier, he nevertheless was only just persuaded not to go to Montreal on college business.

Arthur McGreer will be remembered by students of Bishop’s stretching across the past quarter century. He will be missed, respected and in some cases loved. He served his university well; he served his country bravely; and he served his God faithfully. No man can do more.

(—Reprinted by permission from The Sherbrooke Record, April 1, 1948.)
Reverend Frank Gifford Vial, M.A., B.D., D.C.L.
Entered into rest - October 20th, 1947
In Memoriam

On October 20th, last, all members past and present of the University were saddened by the news that the Rev. Professor F. G. Vial had passed away in his 75th year. He had been associated with Bishop's for more than fifty years, first as student, then as parish priest in the Townships, for twenty-eight years as Professor of Divinity, and for the last twelve years of his life as Professor emeritus, "elder statesman" and adviser; he had also been a member of the University Corporation for a considerable period.

Those who attended the beautiful funeral service in St. Mark's Chapel on October 22, especially those who had been associated with Dr. Vial for many years, experienced the feeling that a worthy final tribute was being paid to a beloved and saintly character who had passed on to a higher reward, after years of suffering borne with a degree of resignation and patience which were the admiration of all who knew him.

Frank Gifford Vial, son of the Rev. W. S. Vial, was born in the city of Quebec on June 25, 1872. After attending the old High School of Quebec, he came to Bishop's for the Arts course and graduated with first class honours in classics in 1893. While an undergraduate, he was one of the founders and first editors of that still flourishing publication "The Mitre". On completion of his Divinity course he was ordained, and worked in the Diocese of Quebec for several years, East Sherbrooke and Fitch Bay being his two principal fields of activity. In 1907 he returned to his old University as Lecturer in Classics and Divinity, and a few years later was appointed Mountain Professor of Pastoral Theology, and Warden of the Divinity House, which position he held for nearly a quarter of a century. A serious breakdown in health in 1935 resulted in his retirement; from that date onwards he lived in the College grounds, and remained one of the best known and most beloved figures in the University precincts.

No one could possibly know and be intimate with "Giffy" without loving him. In the days of his activity, whether as Professor, as kindly adviser of troubled souls, or as a benign presence puffing at a long clay pipe in the smoke-laden atmosphere of the "Churchwarden Club" of thirty years back, he radiated friendliness and good-will—and during the last twelve years of his life, when he was confined to a wheelchair in summer and to his room in winter, it was always to "Giffy" that former pupils and hosts of friends would hasten, on the occasion of visits to Lennoxville. To his colleagues on the staff and to successive generations of students his hospitable door was always open. Who can estimate the amount of tobacco consumed in his company, and the number of chess-battles fought, during those long years when he was incapacitated from active work, and yet remained such an influence for good in all College affairs?

To his last day on earth his interest in his Alma Mater remained unabated. Such men as Frank Gifford Vial are the salt of the earth and the void which he left will be long felt.

Requiescat in pace, et lux perpetua luceat ei.

A. V. R.
The Faculty

Seated: Rev. S. Childs, M.A., B.D., Professor of Philosophy.
       A. W. Preston, M.A., Professor of Classics.
       A. V. Richardson, M.A., D.C.L., Professor of Mathematics, and Vice-Dean of Faculty of Arts.
       A. L. Kuehner, M.A., Professor of Chemistry.
       W. O. Raymond, M.A., Ph. D., Professor of English.
       Rev. E. Scott, M.A., Mountain Professor of Pastoral Theology and Warden of Divinity House.
       J. D. Jefferies, M.A., Ph. D., Professor of Education.

          Peter Kingston, B.A., Reader in History.
          A. N. Langford, M.A., Ph. D., Assistant Professor of Biology.
          M. Home, M. Sc., Professor of Physics.
          F. H. Yarrow, M.A., Professor of Modern Languages.
          S. Mills, M.A., Reader in English.
          D. C. Matchett, M.A., D. Phil., Professor of History.
          A. G. C. Whalley, M.A., Lecturer in English.

Absent: L. Evans, M.A., Part Time Lecturer in English.
        S. Sanders, B.A., Bursar.
Valedictory

As the time draws near when we must leave Bishop’s it is with a feeling of regret that we watch the days slipping by, and realize that our time within those hallowed walls is about ended.

It seems incredible that four years have gone by... we look back at the things we should have done... the friends we might have made... the work we ought to have accomplished... but all too well we realize that the hands of time cannot be turned back. So we are left with memories, cherished memories, of a place we love and will always love.

Looking back to September 1944 when a handful of disappointed and dejected men and women entered Bishop’s in First Year, it is with no little astonishment that we become aware that we are loathe to leave. Our feelings have changed since that first day due to the warmth and friendliness of the students and the faculty, and of course we must not forget the wives of the faculty and their cups of tea.

Our years here have been memorable ones. We have watched the student body grow to the largest enrolment in Bishop’s history, so that with pride we have noted Bishop’s taking a larger place in Canadian life. The new influx of students has brought too the necessity for new professors.

This past year has been one for mixed feelings. Early in the term Dr. Vial passed away after a prolonged illness. In December the blanket of gloom settled more thickly over the University with the mysterious disappearance of Dr. McCreer. During these anxious days loyalty to Bishop’s was truly shown. We were left to carry on a heavy task under the able leadership of Dean Jones. The students fully felt the need of their support and loyalty and through it Bishop’s has seen her outstanding year.

Finally we were thrilled to see the campaign launched for a ‘Greater Bishop’s’ which will continue to hold our interests and hopes though we cannot be here to enjoy it. To you who follow us... we wish you luck... and ask that you too be loyal to Bishop’s. May your stay here be as happy as ours has been.

Bishop’s we salute you and we go forward with heavy hearts yet with these words on our lips:

“Bishop’s we pledge to thee
Our faith and loyalty,
For thou wilt ever be
Our college home."

and we leave with a feeling of pride and gratitude that we have been your sons.

B. A. M.
Students' Executive Council

When the smoke from the elections had cleared away, the students found that the Council for the year 1947-48 was as shown on the opposite page with the exception of Johnny Ouellet, who took office in the fall after the resignation of Bob Graham.

The Council found that it was to have no easy year. Athletics were to demand a large share of its attention as well as of its finances. For the first time in the history of Bishop's a resident football coach had been engaged, and he set about building up the team, with great inroads into the Athletics' budget. The result was that while the football team was no ball of fire, they certainly did better than they had in years gone by. This was the beginning of the Athletics' renaissance at Bishop's. The basketball team entered the Inter-Collegiate loop for the first time, the badminton team won their league, and the hockey team made the playoffs. Tony Lee, "Squirf" Johnston and the Athletics Executive certainly did a superb job.

Athletics were not the only Inter-Collegiate field in which Bishop's made a better showing. Ben Midlige represented Bishop's at two N.F.C.U.S. conferences and made such a name for himself and the University that he was asked to take the Presidency but was forced to decline. A Bishop's man was elected President of N.C. S.V. In Inter-Collegiate debating, Dick Turpin's faithful did not do as well as in the preceding year, because the deferred examinations interfered with the debaters' preparation. Inter-Faculty debates were held and several teams of Bishop's students debated over CKTS in Sherbrooke.

Publications flourished under the presidency of Max Seeley. The Campus finally got out of the red, the Mitre's three issues were very successful, and the Year Book promises to do quite well also.

Entertainment under Johnny Ouellet has had an outstanding year; a larger number of "big" dances were held as well as many tea dances after football games, and informal dances after the basketball games. Ed. Pilgrim and his Common Room committee handled the sale of Christmas cards well, and suitably disciplined the freshmen.

This has been an important year in the history of Bishop's students and it is the hope of the outgoing Council that next year's Council will fully profit from the addition to the Association fees, which will allow them the largest amount of money ever given to any Students' Council at Bishop's.

PRESIDENT OF DEBATING
The Women's Executive Council

The Women's Executive Council had a rather difficult time this year due to the deferred examinations at Christmas which upset some of its plans. The women's athletic activities especially suffered.

A few joint Council Meetings were held and this helped to further good relations between the Men's and Women's Executives. This led to the two Associations holding several joint meetings in the Lent and Trinity Terms.

The only change in the personnel of this year's Council took place when serious illness compelled Gerry Melton to resign her position as the Second Year Representative. She was succeeded by Daisy Casdine.

The Council may be justly proud of the achievements of the women students as a group, in raising funds for various charitable causes. The "Food for Britain" money was turned over to the local chapter of the I. O. D. E. to purchase food for distribution in England. They gave generously to the "Bricks for Bishop's" Campaign, and contributed nearly one-third of the total subscribed to the International Student Service drive.

The Women's Common Room benefitted this year through the efforts of the Council and members generally. The furniture was painted and re-arranged, the girls also playing the part of upholsterers. This work greatly improved the appearance and comfort of the two rooms.

The annual Freshette Tea was held in the Michaelmas Term, and the Senior Tea and the Faculty Tea later, in the Lent and Trinity Terms respectively. All proved to be quite jolly affairs. The Women's Council joined with the Men's Council to provide hospitality to such visitors as N. F. C. U. S. President Bob Harwood from the University of British Columbia, and the visiting debaters from Laval University. Some members also helped with serving refreshments to ski teams who came here for the Eastern Townships Cross-Country Meet.

The Women's Council jointly sponsored two bridge parties in the Gym, one with the Ski Club, and the other with the Women's Alumnae. Their share of the proceeds in each instance was devoted to renovating the Common Room, and adding to the Women's Residence Fund.

The women's athletic activities were limited to one game each for their hockey and basketball teams, but this year the Badminton Team was open to alumnae as well as students.

The Women's Council were pleased to have Mrs. Jefferys act again this year as Dean of Women.

For making the most of a bad situation, the members of the Council deserve much appreciation from the Women's Association of Bishop's.

John Aboud

John is another member of the Aboud family of Grand 'Mere which has made for itself a justly famed name at Bishop's. He came to the university after securing his Junior Matriculation at Laurentide School.

His course in Chemistry and Biology completed John expects to leave Bishop's this year with a B.Sc. degree. His extra-curricular activities have been curtailed this year but he has played Intermediate and Inter-Year Basketball, golf, and took part in track meets. He was also a member of the Biology and Parchesi Clubs. For past experiences John delights to recall the adventures met in a Western Canada harvesting excursion. So-long John, and the best of luck.

Gene Marston Adams

Gene was born in Magog on August 8, 1927, where she spent her early life attending the Magog High School. In the fall of 1945 she enrolled as an Arts Student at Bishop's.

In her own quiet way Gene has taken part in some College Activities, she was an active worker in the Biology Exhibitions of '46 and '47; a member of the choir in the Christmas Carol Service of '45; The Women's Representative on the Year Book Staff of '46-'47; in her third year Gene was Woman Editor of the Year Book and on the I. S. S. Committee. The above list would not be complete without mentioning Gene's efforts to stand up on skis on Mount Orford.

Most of her time is spent poring over Philosophy and English Books—the reward—a B.A. degree in June.

The future will find her tied rather closely to a parish somewhere in Ontario. Best of luck to you Gene!

Frederick Scott Anderson

"Andy" is a Westerner by birth, hailing from Medicine Hat, Alberta, where he was born on May 25, 1925. Little more than his early years were spent in the West for he was educated at Trinity College School, Port Hope, Ontario, and at nearby Bishop's College School.

He counts as pre-university experiences, both interesting and valuable, two years service in the Royal Canadian Navy aboard mine-sweepers and corvettes on convoy duty.

While a student here, reading for B.A. degree in the History Honours Course, Fred has played Senior Hockey for all three seasons, played Senior Football in his second year and found time more recently for Reserve Army service. Then too, "Andy" is one of our married students and a proud father.
James Wilson Atto

"Bill" was born at Ste. Agathe des Monts on April 7, 1923. After attending Lennoxville High School, he entered Bishop's for the first time in the fall of 1940 to read for the B.Sc. degree. Finding too many pitfalls in Maths, Bill entered the army to serve where Maths, were not too important. After six months at the "Khaki University" where he inclined to the path of lesser resistance in Wordsworth and Browning, Bill re-entered Bishop's in '46. This time he elected to study for a B.A. in English and History. Bill has taken part in football, hockey and skiing; has acquired some skill in bridge, and claims to have learned all the CPR trains by schedule numbers. For the future Bill, every success!

Audrey Clarissa Burt

Secretary-Treasurer, Women's Association

"Gina, is there a Council Meeting to-night?" This is our energetic, efficient Secretary-Treasurer of the Women's Executive Council. If you have not yet met Audrey make the most of this opportunity.

Audrey was born at Gallup Hill in the Richmond district on October 28, 1927. However she received her education at several other places in the Eastern Townships. Passing successfully through Coaticook High School, Compton Elementary School and then Lennoxville High School, Audrey finally turned her footsteps toward Bishop's in the autumn of 1945.

For three years here she has been occupied with a Science in Economics Course and leaves with the B.Sc. degree. Her studies did not take up all her time as the many opponents of this sturdy basket-ball player could testify; and the Divines may recall that she was an excellent hockey goalie. Audrey has taken part, too, in skiing and badminton.

In whatever post-graduate occupation Audrey may find her niche, we have good reason to believe she will succeed.

Douglas Watson Burns

On June 10, 1927, the population of Island Brook, P.Q. was increased by the arrival of Doug Burns. After attending the Island Brook Consolidated School for ten years, he then proceeded to Cookshire High where he obtained his Junior Matriculation in June 1944. That autumn he enrolled here for the B.Sc. Course. He was unable to continue with his course in his first year but made a fresh start the following September.

This year Doug concentrated his efforts on a Chemistry and Physics Option and he was to be seen any afternoon putting around the Lab. There he kept his friends amused with numerous witty remarks.

Doug has been a strong supporter of all college activities. His plans for the future are rather uncertain, but we are all sure he will succeed in whatever field of work he may choose.
Herbert Wright Coates

"Herbie" was born at nearby Gould Station on February 6, 1921. He attended Canterbury Consolidated School and later the High School in Bury, P.Q.

For a period of five years—for all but ten days—Herb served as an Airframe Mechanic with Royal Canadian Air Force Fighter Squadrons on the Atlantic Coast and in Newfoundland. He was given an Honourable Discharge on July 20, 1945.

Entering Bishop's in that same autumn, Herb has made his whole concern, the pursuit of the Chemistry and Physics Option leading to the B.Sc. degree, and achieved Honours Standing in his final year. A serious, persevering student he has allowed time and attention to only ONE extra-curricular activity and that a highly important one too—"raising a family (a small one)!". Best of luck Herb for the future, to you and yours.

Brigham Grosvenor Day

"Brig" was born in Montreal, September 2, 1928. He attended Selwyn House School and Bishop's College School. At the latter he rose to be Head Boy and made an excellent reputation in hockey, football and dramatics.

In the fall of '45 Brig entered the University. For three years he played excellent Senior Football, Hockey and Inter-year Basket-ball. In his first year he was cast in a Minor Play and for a lead role in "The Ghost Flies South". Next year Brig was Vice-President of Dramatics and directed a Minor Play. He was active too in debating, publications, radio plays, tennis, badminton and golf; and for a time representative of The Star, The Gazette and The Record.

A hard, conscientious worker, Brig deserves the best. In whatever he does we wish him good luck.

Elaine Evelyn Evans

This happy lass was born September 30, 1928, at Waterville, Que. "Buddy" attended Lennoxville High School, retaining the General Proficiency Scholarship, graduating with the Screen Plate and Commissioners Scholarships. In Grades X and XI she won the Lieutenant-Governor's awards.

At Bishop's since September 1945, enrolled in the English Option Course, she has been active in many student endeavours. A member of the Music and Biology Clubs, she gave valuable assistance in Christmas Carol Services and the Biology Exhibition in 1946. Her hearty cheers at college games will not be forgotten nor her skill in Common Room bridge. She also took part in dramatics and outside college found time for voice culture and public singing. For the future, the best of luck in whatever you do.
Eleanor Jane Farrar  
Vice-President of Publications

Jane was born in Montreal on August 10, 1928. She attended the Kensington Public School there and later continued her education in the High School at Asbestos, P.Q.

The autumn of 1945 found "Janie" at Bishop's where she soon became another member of "the mad scientists" group. No Arts student ever saw Jane during college hours... someone was always trying to find her... but never looked in the right place. For Jane was to be found in the Labs, dissecting animals or concocting chemical solutions. What course did she take? It could only be the Biology and Chemistry Option.

Besides her academic work she found time for a number of outside activities. In her first and second years Jane served as Secretary-Treasurer of the Biology Club and took an active part in the annual Biology Exhibition; acted as a reporter for The Campus and belonged to the Music Club. She filled the role of "Aunt Maria" in the Minor Play-The Family Group in 1945. This last year Jane has been a member of the Women's Executive Council as Publications Representative and has been Vice-President of the Board of Publications.

So-long, Jane. Good Luck!

Lewis Malcolm Greenberg

Sherbrooke, Que. will always remember the date May 23, 1928 for that was when Lew first saw the light of day. He attended Mitchell School for seven years and in 1941 entered upon further study at the Sherbrooke High School where for four consecutive years he was awarded scholarships.

Lew was interested in sports too, playing goal for two championship hockey teams. The 5th Sherbrooke Midgets and The 67th Air Cadet Squadron. He was also playing manager for three years in basketball, being a member in the final year of the team winning the E. T. B. A. Championship.

At university Lew qualified for Honours in Chemistry and Maths, and this limited his extra-curricular activities to basketball.

With the perseverance and interest that Lew has shown in both academic and other activities, we are sure success will continue to come his way.

Robert Frederick Gurr

Robert Frederick Gurr — or "Woof" — was born in Three Rivers on July 7, 1928. He attended Laurentide School in Grand-Mere, P.Q.

"Woof" graduates with a B.Sc. degree in Maths and Physics. He found time for many activities. He played Senior Football, Inter-Year Hockey and Basketball; also badminton, golf, soccer, track and ping-pong, and was a member of the Ski Team. He was representative to the Eastern Townships Ski Association ’47-’48. He has served in executive capacity as Secretary-Treasurer of the Ski Club ’46-’47, of the Common Room Committee ’46-’47, and of the Athletics Executive ’47-’48. He was a member of the Glee Club, acted in a Minor Play and served as Stage Electrician.

Rumour has it that he will go on to study Mechanical Engineering at McGill. Farewell and good luck, "Woof". You have served your Alma Mater faithfully and well.
Mary Kathleen Hamilton

Mary came to Bishop’s in September 1945 from New Carlisle, P.Q. Mary was born on March 14, 1927 and attended New Carlisle High School where she graduated in June 1944. After teaching school a year she decided to come to Bishop’s. Here Mary took part in college life. In her first and second years she played defence on the Co-ed Hockey Team in the game against the Divines.

In her final year, besides studying Philosophy and English she is the Non-Resident Representative on the Year Book Staff and acted as the Recording-Secretary. Having obtained her B.A. in Philosophy and English Mary hopes to enter the nursing profession. Best of luck to you.

Francis John Harrington

Jack was born May 31, 1924, at Harrington Harbour on the bleak Labrador. He was educated at several widely scattered schools including: Kenogami High, Stanstead College and St. Francis College at Richmond. Between school and college days he served for three years as a Radar Mech. in the Royal Canadian Air Force.

For the past three years Jack has read for the B.A. degree in the Philosophy and History Option. He has made time, too, for many activities. In all three years he has played Senior Football, and also taken part in basketball and hockey. He acted as Secretary-Treasurer of the Veterans’ Society and was active in debating, in Minor Plays and the History Club. He was associated with The Campus through 1945-48, serving this last year as Managing Editor.

Mary Isabel Hibbard

Isabel was born in Sherbrooke on February 9, 1928. After attending the Jesus and Mary Convent and the Mount Notre Dame Convent in Sherbrooke she became a student at Bishop’s in September 1945. Here Isabel took a variety of Subjects in the first and second years leading to Philosophy Honours in her final year.

In her first year Isabel took part in the Minor Play “The Family Group”; she also acted as one of the cheer leaders for the football game; and was on the Co-ed Hockey Team.

This year found Isabel playing badminton. Her outside activities include tennis, horseback riding, skating, skiing. Last year Isabel won the Lake Park Singles Championship; the Mt. Pleasant Singles Championship and the Mixed Doubles Championship in tennis.

Not having the gift of prophecy we cannot assist in deciding what she will do when ‘she goes forth adorned with her degree’. All we can say is good luck to you in whatever you do.
Gerald Harlan Johnston
Vice-President of Athletics

Gerald, born on July 20, 1928, received his early education at the Andrew Stuart Johnson Memorial High School in Thetford Mines. After exhausting the educational facilities there he came to Bishop's with a basketball tucked under each arm and asked to be directed to the “G” (gym, of course!). He claimed his primary purpose was to obtain the B.Sc. degree for which purpose he chose the Chemistry and Physics Option. “Squirt” as he is known to all, played on the Senior Basketball Team for three years and became manager of the team this year. Basketball was not the only sport that he excelled in for he also played in all three years on the various Inter-Year Hockey Teams. His keen interest in sports resulted in his election in his final year to the Men’s Council as Vice-President of Athletics.

Jay Dunham Joslin

Jay names Sherbrooke, Que., as his birth place and states the date to have been July 1, 1925. After graduation from the Sherbrooke High School he served for several years in the Royal Canadian Air Force.

Following his discharge from the services, “Jos” enrolled at Bishop’s and selected the Chemistry and Physics Option from among the various science courses offered. While here he has played football with no little distinction and also shown his skill on “the hickories” on the nearby golf-course slopes. Then, too, for part of his time here he solved the riddle of Sherbrooke-Lennoxville commuting, with a vehicle that originally at least was all Ford. So long “Jos” and the best of luck always!

Clarence Duncan Kendall

Clarence is yet another of the many local folk who make their way to Bishop’s for one or other of the courses offered here. Born on June 11, 1928, in Sherbrooke—he even recalls the momentous hour to have been 3:30 p.m.—Clarence later attended several district schools. These were Milby District School, Ascot Consolidated and Lennoxville High School. Since 1945 Clarence has been occupied with the Biology and Chemistry Option leading to the B.Sc. degree. Such extra-curricular activities as he found time for were, not unnaturally, in keeping with his academic work. Through all three years here he has been an active worker in the Bishop’s Biology Club. And to his future work he takes that keen, questing spirit that marks the good researcher.
Victor Louis Komery

Victor was born in Sherbrooke on August 25, 1927. While he still calls this “Queen City of the Townships” his home, he has lived for varying periods of time in other nearby centres. He received his earlier education at the high schools in Lac Megantic and Thetford Mines.

Since entering Bishop’s in the autumn of 1945, Victor has been contending quite successfully with the Mathematics and Physics Option and graduates with the B.Sc. degree. He has found outlet for extra energy in several team and individual competitive sports. He has played Inter-year Basketball and Inter-year Hockey for three seasons, Intermediate Basketball in his final year as well as taking part in track meets, tennis and skiing. Best of luck, Victor.

Byron Coates Labonté

Though keeping secret the year of his birth Arthur Byron Coates Labonté arrived in Lennoxville on April 26. He received his earlier education practically within sound of the chapel bell, for he attended Ascot Corner School, Ascot Consolidated and Lennoxville High School.

Later he qualified for the Intermediate Teacher’s Certificate at Mac-Donald College and enrolled for the French Specialist’s Course during vacations in three years of school teaching. He served in the R. C. A. F. four years, of which one was passed in “Newie”. Byron graduates with the B.A. degree after following the English Option Course. While here he has taken part in the programmes of the Biology, Music and History Clubs, and boasts further of never having missed a college dance. Our best wishes, Byron, in whatever may be your future work.

Barbara Joan Leaker

Barbara Joan (but Mrs. A.D. in more matronly moments) was born in Argonaut, in the rugged mining country of Northern Ontario, on August 18, 1924. Barbara obtained all her pre-university education on this side of the Atlantic, except for one year spent at Bridgewater, Somerset, England. She attended both the Public School and the Collegiate Institute in Kirkland Lake, Ontario. From September 1, 1943 to January 22, 1945 Barbara served in the Women’s Division of the Royal Canadian Air Force, stationed at Patricia Bay, B.C., where she trained for overseas duty on Fighter Operations. After discharge Barbara attended Queen’s University for a year and came to Bishop’s in the Michaelmas Term of 1946. Here she has pursued the Honours Philosophy Course leading to the B.A. Degree, and in this has shown herself to be a first class student, and was awarded the Women’s Alumnae Scholarship for highest standing in Second Year.

Apart from her college course Barbara has found full-time occupation in the “philosophy” of keeping house.
Anthony Balling Lee
President of Athletics

Tony was born in Barrie, Ontario, on August 24, 1924. He attended the Model School in Ottawa and later Ashbury College. On graduation there he joined the 1st Hussars Regiment of the Canadian Armoured Corps, and saw action in France, Belgium, Holland and Germany.
Tony’s fighting spirit was seen for three years as the most outstanding tackle on the football field; as goal-keeper and defence player in hockey. He took part also in soccer, cricket and basketball and was a member of the badminton and ping-pong groups.
He served on the Students’ Executive Council as President of Second Year and then President of Athletics. The Veterans’ Society which he represented at the 1947 Conference of the National Student Veterans’ Society, the Dance Committee and The Glee Club have all benefited from his keen interest and boundless energy.

Andrée Carroll Legge
Vice-President, Women’s Association

“Meet Carroll Legge, the Vice-President of the Women’s Executive Council.” Born in Montreal on July 5, 1928, Carroll received her earlier education at Granby High School and enrolled at Bishop’s on graduation from there in 1945. She soon fitted into college life; studying (naturally) as well as other activities. These “extras” included three active seasons with the Girl’s Basketball Team, the Biology Club, the Dramatic Society’s productions, the Dance Committee, the Literary and Debating Executive, and this last year serving as Circulation Manager of The Campus. Yet with all these claims on time and energy she has found time to complete the English Option Course. But we nearly forgot to say that Carroll is an enthusiastic bridge player. Almost any day between lectures she could be found on the Common-Room floor engrossed in a game with “Barb”, “Buddy”, and Monique.
Carroll has chosen nursing for a future career. In this profession, “Bonne chance, Carroll”.

Owen Donald Lewis

Owen Donald Lewis was born in Sherbrooke, May 10, 1920.
Went to B.C.S. with two years off, in Toronto, Scotstown and Portneuf.
Entered Dominion Forestry Service for six months. Schools.
Nominal Business Course in Quebec City.
D rifted in to the R. C. A. F. as a Meteorologist in September ‘39.
O bserved authorities sent him to Trenton, Halifox, Dartmouth, Yarmouth.
N abobs in Ottawa remustered him to Pilot in 1942.
A ir Training in Toronto, Goderich and Exeter, Ontario.
L end-lease sent him overseas early in 1943.
D elivered over Holland piloting a Lancaster bomber.
L imped through Holland, Belgium, Germany, Poland, Czecho-Slovakia.
Entered Hungary, Austria, France; liberated once by Stalin, then by the Yanks.
I mmate of Bishop’s University September 1945 to June 1948.
S trove mightily at the International Affairs Institute and History Club.
A nd
B ite” grew up to bark but not bite, at Bishop’s and Portneuf, P.Q.
I n the future Don and Joyce intend to raise a family (first edition here).
T hanks to the generosity of Dr. and Mrs. Masters, the Lewis family
T hink that they are more than adequately housed Veterans.
E xuent.
Harry A. MacDiarmid

Harry Abbott MacDiarmid, better known as "Pete" was born in Montreal, but passed most of his early life in Quebec where he was educated at the High School of Quebec.

After a period of Navy Service that was replete with many and varied experiences, he returned to Bishop's to resume his studies and took part in such extra-curricular activities as the Music Club, the Biology Club, and the Current Events Club.

He has exercised the right to change his mind before bidding his Alma Mater farewell, for the once intended science student has spent the past year in qualifying for the B.A. degree in History and Philosophy. Here's to your success in the future, "Pete".

James Archibald Macdiarmid

Every year on March 8th Jim celebrates. Way back in '28 in Quebec City he reported for duty and has been on deck ever since. He attended Quebec High School and Bishop's College School where he graduated in 1945. He then proceeded to Bishop's and enrolled in the B.Sc. (Econ.) Course.

When queried as to pre-university experiences he simply stated, "my years at school were the best years of my life, i.e., indulging in 'those extra-curricular activities'."

While at Bishop's Jim played for three years on the Senior Football Team and as well on Inter-Year Hockey and Basketball Teams. He has been a stalwart in the recently revived Glee Club and was a strong member of the '45-'46 Ping-Pong Club. He also served as Secretary-Treasurer to the Dance Committee, and was of "the Brotherhood".

Howard Leonard McIntyre

"Mac" as he has become known to all his friends is very much a native of the Eastern Townships. Born in Sherbrooke on August 11, 1927, Howard attended Mitchell School and later the Sherbrooke High School.

"Mac" entered Bishop's in September '45 and almost immediately became a member of "The Mad Scientists' (Society?)" who will yet blast humanity from the face of the earth.

"Mac" graduates with a B.Sc. degree in Honours Chemistry and Maths. As for activities apart from his rather arduous studies "Mac" says he played ONE Inter-Year Hockey game—1st Year vs 2nd Year in 1946. This year he has been a Laboratory Demonstrator in First-Year Chemistry. Then too, daily commuting between Waterville and Lenoxville takes a good deal of time.

Whatever your plans are for the future "Mac", we know you will succeed and we wish you the best of luck.
Lorne Francis McKay

Lorne came to Bishop's from Ontario's Niagara Peninsula, being born on October 27, 1926, in Dunnville. He attended the Byng and Dunnville Public Schools and also Dunnville High School.

A serious, conscientious student Lorne has qualified for the B.A. degree in the Honours Philosophy Course. While so engaged he has found possible a considerable measure of extra-curricular activity. He played Inter-Year Basketball and Hockey in his second and third years and in the annual "Divines vs Co-eds" classic. He was a keen skier though entering no competition. He was Senior Freshman '45-'46, a member of Literary and Debating, and Athletics Executives in '47-'48, and of the History Club. He took part too, in Skinner Trophy and Inter-House Debates. For your future "Mac", whatever you do, our best wishes.

Reginald Ivan Morgan

"Reg" was born in Ottawa on August 24, 1923. He attended Nepean High School in the Ottawa suburb of Westboro, and Trinity College School, Port Hope.

Between high school and university days he served for three years and a half in the Royal Canadian Navy as a Radar Mech. Duties afloat carried him to such places as Gibraltar, Freetown, and Alexandria.

Entering Bishop's in 1945, Reg has read for the B.A. degree, choosing the Philosophy Option. As for extra-curricular activities—Ecce Homo! who declares he has spent three years—"changing the Bishop's frown to a smile". While yet undecided between Law, the Civil Service or teaching for future work, Reg leaves with all the good wishes he deserves.

John Cuthbert Murray

"J. C.", as he has been widely dubbed during his stay here, hails from that premier community of the South Shore—St. Lambert, Que.—where he was born on August 13, 1923. He received his early education in the St. Lambert High School.

After three years army service in Canada and overseas, John enrolled here in the autumn of 1945. He set his sights for a B.A. degree with the History Option as the bull's-eye. The work involved therein did not prevent him from being a stalwart member of the "Purple and White" Senior Hockey Team for three years, nor in this last year a supporter of the recently organized Glee Club. "J. C." expects to study here next year for the High School Certificate. In that venture, Good Luck!
William Liddon Murray

Secretary-Treasurer of The Students’ Association

Bill was born in Quebec City on October 31, 1928. He attended the Three Rivers High School but when discreet enquiry was made as to his pre-university experiences Bill remarked cynically “nothing that could be classed as experience ever happens in Trois Rivieres”.

He has proven amply his mathematical ability in taking Maths Honours leading to the B.A. degree. In the three years spent in that task Bill has thrown himself enthusiastically into a number of activities that have demanded hard work and “stick-at-it-ness”. In his first year Bill was a member of the Stage Crew and on The Campus Staff. Next year saw him promoted to Stage and Property Manager and to Circulation Manager for The Campus. In addition he acted as Secretary-Treasurer of Athletics Executive and on the Dance Committee. In his final year Bill continued this latter activity, was Assistant Stage Manager, and not least a diligent, efficient officer of The Students’ Association.

Regina Northridge

Senior Lady

“She never wears a worried look
Nor seems to puzzle o’er a book”

Regina, our Senior Lady, was born at Vail’s Gate, New York on October 18, 1926. After attending St. Mary’s Hall, Asbury High School and Sherbrooke High School she came to “Bish” in September ’45. The summer before entering “Bish” “Gina” served as a Nurses’ Aide in the Kingston General Hospital.

Besides her university studies she has ardently supported many college activities . . . . three years on the Campus Staff; she directed and took part in college plays; was a member of the Dance Committee; Managing Editor of the Co-ed Issue of the Campus ’47-’48; took part in Debates and was Dramatic Representative on the Women’s Council ’47; was a member of the History Club and last but not least President of the Women’s Executive Council ’47-’48.

In her final year “Gina” took the English and History Course leading to a B.A. degree. “Gina” tells us that she would like to go into Personnel Work with the Bell Telephone Company. Good luck to you “Gina” from your classmates of ’48.

Jean-Paul Ouellet

Vice-President of The Students’ Association

Jean-Paul, or “Johnny” as he is far more often dubbed, was born in Riviere-du-Loup on May 24, 1925. He was educated at L’Ecole St. Joseph in Arvida, at Arvida High School and Stanstead College.

During three years here he has followed the Chemistry and Maths Option leading to the B.Sc. degree. Time has been devoted to a wide variety of activities. “Johnny” played both Senior Basketball and Inter-Year Hockey in his first year, and was a member of the Ski Team. He served in three executive posts: President of the Ski Club, Vice-President of the Literary and Debating Society, and Vice-President of The Students’ Association. He founded Bishop’s Orchestra—“The Silkworms” and was prominent in “the Brotherhood”. 
Melvin Norman Porter

Melvin is a native of Quebec's famed Megantic County. He was born in the village of Maple Grove not far from Thetford Mines. In this latter place he received his education, matriculating from the Andrew Stuart Johnson Memorial High School.

Between high school and university days he saw active service for two and one-half years with the Royal Canadian Air Force.

For the past three years here he has been occupied with the Chemistry and Maths Option leading to the B.Sc. degree. While any extra-curricular activities have been necessarily limited he has given both the time and necessary energy for skiing and basketball. Only an accomplished seer could predict your future course "Mel", but whatever it may be we wish you success.

James Robson

Jim hails from Quebec City where he was born on March 19, 1929, but he lived in a number of other towns in his early years. He is a Matriculant of the Andrew Stuart Johnson Memorial High School in Thetford Mines.

Since enrolment at Bishop's in the autumn of 1945, he has read for the B.Sc. degree in the Chemistry and Physics Option Course in which he gained Honours Standing in his final year. This heavy course has not prevented him taking an active place in extra-curricular life. In 1946-47 he turned in a first-rate job as the Advertising Manager for the Year Book. This year he has served as Secretary-Treasurer of The Mitre, and been a member of the first Board of Publications. He has been active in the Music Club, and confesses to participation in "general hell-raising".

Jonathan Robinson

Jonathan was born May 29, 1929 in Montreal. He attended Roslyn School there, then Bishop's College School but matriculated at Westmount High School.

"Jon" or "Johnny" took part in many activities. Debating was perhaps his forte—inter-year, inter-faculty, and inter-university. He also served as Secretary-Treasurer of the Literary and Debating Society; Secretary of the History Club; was a member of the Music Club and active in skiing and badminton. This year he was Editor of The Mitre. For all three years he has been chapel organist.

He graduates with a B.A. in Honours Philosophy. His intellectual and musical capacities have made many friends. While his future plans are uncertain, though they include post-graduate study, possibly in the United States, we know he will be successful in whatever field he chooses.
William Lethbridge Rowe

Bill (dubbed “dice-jockey” by the Bursar) was born in St. John’s Newfoundland on January 7, 1925. He was educated in schools at Port Daniel and Valcartier, and at Bishop’s College School. Bill joined the Royal Canadian Navy in April 1943 and received Honourable Discharge in October ’45. He has studied here for the B.Sc. degree following the Maths and Physics Option.

Bill played Senior Football for three seasons and took part in the track and ski meets. He was a member also of the Third Year Hockey Squad. Apart from athletics Bill has capably filled the position of Make-up Editor on The Campus and served as a member of the Dance Committee. He boasts of being one of the originals of “the Brotherhood”.

James Richard George Rowley

Jim was born in East Angus, Que. on September 30, 1928. On matriculating from East Angus High School he enrolled at Bishop’s as a science student in the autumn of 1945.

Jim played for three years on both the Senior Hockey Team and the Inter-Year Basketball Teams, in the latter case championship teams for two seasons. Track, the Glee Club and acting as Third Year Representative on The Year Book Committee have been more of his college activities, “topped”, he says, “by general hell-raising”.

Jim served as a Corporal in the 16th Armoured Regiment (Reserve) for three years before entering “Bish”, and played on the Championship Juvenile Hockey Team in East Angus in 1945.

He graduates with the B.Sc. degree in Chemistry and Physics. When asked what he intended to do in the future he grunted non-committally—“Work”. Whatever it may be Jim, your classmates of ’48 wish you every success.

Maxwell John Seeley

President of Publications

Along with basketball players, Thetford Mines has sent up many students, but only one Newfoundlander. Max who was born in Belleoram in 1917, graduated from Thetford Mines High School in 1938, and from “the school of hard knocks and experience” Montreal in 1940 when he enlisted in the Royal Canadian Air Force. After training and a tour on East Coast Patrol Squadrons, he served for three years in England as Sergeant-Fitter, Armourer A, with No. 408 Squadron in a Bomber Group.

He edited several service newspapers in Canada and in England. Discharged in September 1945, he was awarded Mention in Dispatches in the King’s New Year’s Honours List 1946. In addition to studying for a B.A. in History, Max was active in football, debating, the History and Parchesi Clubs; was Editor of The Mitre and The Year Book; on the Students’ Executive Council as first President of Publications, and Member of the Canadian Institute of International Affairs.
Frances Pearl Smith

Have you ever seen that quiet little brunette flitting across the quad? You haven't? Then let's get acquainted. This young miss, Frances Pearl Smith was born in the city of Sherbrooke, October 4, 1927. Having completed successfully her studies at East Ward and Mitchell Schools, and at Sherbrooke High School, Frances enrolled as a student at this university in the autumn of 1945. After sampling a considerable variety of subjects in her first and second years, she decided that English should be her major interest in her final year.

Rumour has it that Frances would like to teach school. In such work, or in whatever else she may undertake, we wish her the best of luck.

Robert H. Smith

"BORN: To Mr. and Mrs. A. C. Smith of Three Rivers, P.Q., on December 14, 1924, a son." Such was the notice given in the local paper to such a significant event.

Bob was educated at the Three Rivers High School, and after receiving his Junior Matriculation entered Bishop's where his academic career has been most successful.

On completing his second year, Bob joined the Lord Strathcona Horse R. C., and was with the 5th Division in the Mediterranean area. After being Honourably Discharged he returned to Bishop's where he qualified for the B.Sc. degree through the Honours Chemistry and Physics Course.

Bob ("Burlap" to some of his friends) played Inter-Year Hockey last year and Senior Hockey this year despite a heavy course. Every good wish, Bob, from your friends at Bishop's.

Barbara Anne Stevenson

Athletics Representative, Women's Association

Born . . . . to Mr. and Mrs. R. H. Stevenson of Lennoxville, in the Sherbrooke Hospital on June 16, 1928, a daughter, Barbara Anne. Matriculating at Lennoxville High School, she entered Bishop's in the fall of '45. Barbara's good nature and genuine enthusiasm for college activities has won for her many friends. In the first two years here she took an active part in basketball, was a member of the Biology Club and served as Second Year Representative on the Women's Executive Council. She found time too for badminton, to be a staff-member on The Campus and serve on the Dance Committee. In her last year more time has had to be spent in her English Course, but she continued her work on the Women's Council and "behind the basket".

Future plans? Just look at the RING, and that beaming smile. Best of luck to you both!
Mireille Germain Ste-Marie

Mireille was born in Quebec City on November 24, 1928. After attending two convents, namely in Ste. Anne de Pocatière and in Lennoxville, and the Lennoxville High School, she decided to enter Bishop’s University three years ago. While reading the Science in Economics Course she has proven herself a brilliant student. Her chief outside interest has been the annual (usually) “comedy of the year” — the hockey game between the Co-eds and the Divines, for with Mireille on the ice the fledging parsons found it best to concentrate on Theology. Her future plans include the study of Spanish and Italian. Au revoir, Mireille. Bonne chance.

Desmond Neil Stoker

President of the Dramatic Society

Born in Montreal on June 4, 1927, Des went to Selwyn House School and later to Bishop’s College School where he entered fully into extra-curricular activities.

In his first two years here, Des was snap on the Senior Football team, played Senior Hockey, Inter-year Basketball and Badminton. He was in Minor and Major Plays, directed a play, and rose from Business-Manager to Vice-President of the Dramatic Society. Des also served for two years as CUP editor on The Campus and was Advertising Manager for the 1946 Year Book.

His final year found Des handling the position of President of Dramatics on the Students’ Council with fine results and yet having time to play on defence for the hockey team, as well as being recognized as one of the best linemen in the football league.

Allan Neil Sutherland

Allan was born in Sherbrooke on June 29, 1928. He attended Mitchell School there for a time and later transferred to Lennoxville High School when this town became his home. At L. H. S. he played, more or less successfully, every sport on and off the curriculum.

Here at Bishop’s since 1945 Allan has concentrated on no particular activity but touched on many items: rugby, basketball, Inter-year Hockey, track, skiing and softball. He was one of the original members of the Biology Club and was elected President in his final year.

Oh! we nearly forgot. He was occupied chiefly here in the Biology and Chemistry Option leading to the B.Sc. Degree. Next year he may return for the Education Course. All the best, Allan!
John Alfred Turpin
President of Literary and Debating

John Alfred, better known here as "Dick" in deference to an historic English character, made his first appearance in Quebec City. Born there on June 29, 1924, he was educated at The High School of Quebec and at Three Rivers High School.

Before enrolling at Bishop's "Dick" had served for three years with the Royal Canadian Air Force, two years being in operations overseas.

He has qualified for the B.A. degree through the History and Philosophy Option. In athletics he has shown proficiency in Senior Football, and in Inter-Year Hockey and Basketball. He took part in dramatics, a Minor Play in his first year, and being cast this year in "The Barretts of Wimpole Street". He participated in Skinner Trophy, Inter-Year and Inter-House Debates. He was a member of The Students' Council as President of Literary and Debating Society in his final year. Good luck "Dick".

Donald Hanson Wilson

"Don" was born in Montreal, April 9, 1927. He attended the Appleby School in Oakville and Trinity College School in Port Hope, Ontario, where he obtained his Junior and Senior Matriculation. He came to Bishop's in the fall of 1945.

For three years he has been a stalwart in Senior Football, two years as a Half-back and this year as End. He was also Manager of the team this year. Don has taken part in radio drama, was a prominent character in the Major Play in his first year, survived three years of Inter-Year Hockey and as much time with the Ski Team. He has also been a member of the Glee Club.

As he leaves with a B.A. degree in Honours English, we wish him the best of luck and will follow his career with much interest.

Gordon Harry Zakaih

Gordon was born in Sherbrooke, P.Q. on May 17, 1928. He attended Mitchell School and received his Junior Matric from Sherbrooke High School. He was awarded three scholarships in this early phase of his education. An able organizer and a keen participant "Zak" took part in many school activities, being manager of Football and Hockey, and a member of the championship High School Basketball Team in '45.

At Bishop's, "Zak" became a reporter on The Campus and columnist for the Sherbrooke Telegram. In his first year he was assistant Manager of Football. He was a member of the Inter-Year Hockey and Basketball Teams in all three years. He graduates with a B.Sc. (Econ.) degree.

"Zak" brought with him a great sense of humour and a charming personality. His many friends hope that things will always "come seven come eleven" for him.
1. "Now when I was at...."  
2. "That's where my money goes"  
3. "Uncle Lew"  
4. Dare I?  
5. Atomic weight is....

6. Bishop's Band-wagon  
7. Love me? Love my dog!  
8. "Bulloney"  
9. "In the B"—Action!  
10. Watch closely!  
11. Man vs Machine

12. "Never trouble Tribble till Tribble troubles you."  
13. First Line of.....Attack!  
14. Ah! See you!
Ah... this calls for an hour...
   ah... concentration... ah...
   after school, Sue... ah... hmm...
Robert William Bailly, B.Sc.

Bishop's now bids farewell to a "Bluenose" who has won wide respect by both his athletic achievements and his genial manner. Bob was born at Lunenburg in Canada's Atlantic Coast province, on August 14, 1927. Educated at the Lunenburg County Academy, he enrolled here in 1945, choosing the Maths and Physics Option in which he gained the B.Sc. degree last year.

The Education Course has somewhat limited his activities this year, but Bob has played outstanding Senior Basketball for four years and been active too in Inter-year Hockey, tennis and softball.

Our best wishes to "a prince of good fellows" as he goes to his new work as a High School teacher. So-long Bob, we'll be hearing of you.

Gordon Edward Bown, B.Sc.

Gordon is another of Lennoxville's sons who came to Bishop's. He was born on August 18, 1925. After matriculation at the local high school, Gordon enrolled here in 1942.

Three years later in proud possession of a B.Sc. degree, after completing the Honours Maths and Physics Course, Gordon donned the King's uniform. He served with the Royal Canadian Artillery until October 1946, rising from Cadet to Lieutenant. For seven months he was attached to the Canadian Armament Research and Development Establishment.

This year while training for the High School Certificate, his extra-curricular activities have been limited to hockey but previously he was active in athletics and dramatics, and in the C.O.T.C. And now in your newest venture, Good Luck, Gordon!

Mary Ardelle Burns, B.A.

Fourth Year Representative, Women's Association

Ardelle was born in Island Brook, P.Q., August 3, 1928. She received her education at Island Brook Consolidated School and Cookshire High School. In 1947 she graduated from Bishop's with a B.A. degree, majoring in Mathematics. This year Ardelle took the Education Course leading to the High School Certificate. She was also Fourth Year Representative on the Women's Executive Council and Education Faculty Representative on the Year Book Committee. To Ardelle in her career as a teacher we wish the best of luck.
Cleland Ray Martin, B.Sc. (Econ.)

Ray was never far from home during his four years at Bishop's for he hails from nearby Bury, P.Q., where he was born on April 7, 1925. He received his education at Brookbury Consolidated School and later at Bury High School.

A graduate, with the B.Sc. (Econ.) degree, of a year ago, Ray has been fully occupied this past nine months with the theoretical as well as the necessary practical side of the training for the High School Teacher's Certificate. While here though he has been a member of Le Cerle Français and the History Club.

Ray now enters a profession in need of able, persevering workers such as he has shown himself to be, with the good wishes of all who have come to know him here.

Earle Young Templeton, B.Sc.

Earle has been in attendance at Bishop's again this year after an interval of six years since graduation. Born on June 11, 1921 in the Scotch Concession at Riverfield, P.Q., he received his earlier education at Riverfield Elementary School and Howick High School.

When studying for the B.Sc. degree which he received in 1942, he was active in athletics, publications and the C. O. T. C.

He has already gained a considerable measure of practical experience in teaching posts at the Granby High School and at Lennoxville High School. Now with the High School Certificate as further proof of his qualifications, he resumes full-time work as a teacher. All the best, Earle for your future work!
AIM: To obtain a High School Certificate.

METHOD: Lectures and Practice Teaching.

MATERIALS: Professors, Students, Pupils.

INTRODUCTION: The first capacity was capably fulfilled by "Jeff", and the last by the numerous pupils of the Sherbrooke and Lennoxville High Schools, and the Mitchell and East Ward Schools in Sherbrooke. All these pupils did their best to provide suitable material on which we could practice our skills. "WE"—were the group of five student teachers—"Tempy" and Gordie who came back after graduating in '42 and in '45 respectively, and Ardelle, Ray, and Bob who were graduates of '47. We had Rev. B. Whitlow, Chaplain at B. C. S., as a partial student, as well as the occasional stranger appearing to listen to some of our lectures.

ADVANCE: Every morning, promptly at 9.05, four streaks of lightning... and Martin... could be seen going down the New Arts corridor. During the next two hours the minds of these individuals were exposed to odd bits of educational theory, ranging from "igneous fusion" to the "1 and 8 factor of the eclectic theory". Lectures usually ended with, "What have you been reading lately?—well within the last week or so?—To-morrow we shall go back to Educational Psychology with the usual phenomena from 9.00 to 9.10 A.M. If anyone has any wretched lesson plans, I am prepared to look at them now."

Every afternoon four of us rushed off to catch the twenty-to-one bus to Sherbrooke, where we proceeded to disrupt everything in the classes we were teaching. "Another conference?—Mr. Bown?—As usual, Miss Burns was teaching in a Turkish Bath—Oh! Come now! Mr. Bailly, that would be revolutionary—Mr. Martin spent the afternoon entertaining his class with various bird-calls."

"Oh Yes! This Algebra XI A looks very exciting. And how are the June Exams and our little friend "X"?—"Tempy" spent his afternoons at Lennoxville High School, teaching Science, with the occasional Geography or English class thrown in for good measure. His most important discovery of the year was an ingenious method of keeping ice cream from melting, on the window-sill of the Chem Lab.

ASSIGNMENT: Our year of Education has come to an end but as we look back we remember the many amusing incidents and interesting moments that helped to make it our last year at "Bish". With "Jeff's" blessing we now venture forth to jobs of our own. Till we meet again then— at Convention!
Six men will graduate in Theology this June, the largest class in several years. From now on the effect of the war upon the number of candidates offering themselves for Holy Orders will gradually lessen. Men from the forces and others are entering university in increasing numbers to prepare themselves for the Church’s work.

Five new men, including three veterans, took up residence in Divinity House last September to train for Holy Orders; they are: William Giovetti, Ebert Hobbs, Thomas Knox, John Pearce, and Charles Staples. There were four deacons in residence: Reverends Thomas Gibson, Clarence Jensen, Benjamin Midlige, and Robert Wright. The deacons assisted in the daily services in the college chapel and by taking Sunday duty. They were elevated to the priesthood this Spring. Francis Gooch and Thomas Hardy are the other members of the graduating class. During the summer, Francis expects to take a Clinical Training Course in a large American hospital, proceeding to the Diaconate in September. Thomas Hardy, who is too young for ordination, plans to take post-graduate work in the United States next year.

Being a theological student, in a university with several faculties, is not the easiest of roles. The average ‘divine’ finds that he is drawn by two opposing forces. One cajoles him into ‘being one of the boys’, yet he feels called to separate himself from numerous activities in order to develop spiritually and gain insight into deeper spiritual truths. He finds himself criticized no matter in which direction he leans. The happy medium is the ideal for which every divinity student should strive. It is in residence and in associating with all faculties that the theological student has opportunity to learn various points of view. Such experience is most valuable to the young clergyman when he assumes the responsibility of a parish.

At the beginning of Lent term a Retreat was conducted by the Reverend Father John McCausland of the Society of St. John the Evangelist, Bracebridge, Ontario. Fr. McCausland’s addresses mainly dealt with the priest and his inner life, a subject the conductor knew well, as a professed monk who spends many hours every day in prayer and worship.

The divinity student, entering his vocation in these days of anxiety and revolution, has his work cut out for him. Yet he can work with zeal, knowing that the Holy Spirit is ever present to enable his blinded sight, to anoint and cheer him, for where He is guide no ill can come.
Thomas Reese Gibson

Tom was born in the United States, April 21, 1922, but was educated at Central Collegiate, and took an Extension Course at McMaster University, in Hamilton, Ontario.

At Bishop's he found time for many activities, including: Secretary-Treasurer of The Mitre for two years, President of the History Club '46-'47, a lead role in the Major Play 1945, Skinner Debate Trophy Winner for two years, Sacristan, Chapel Choir, the Guild of the Venerable Bede, Divinity House Senior Man '47-'48, the Music Club, and even some skiing.

He will be remembered as one who was conscious of his vocation yet was a good friend and amusing company. Ordained to the Diaconate by the Lord Bishop of Niagara June 11, 1947, he has been appointed to the staff at Christ's Church Cathedral in Hamilton.

Francis Nelson Gooch

"Frank" was born on November 16, 1919 in Toronto where he passed almost stealthily through Public school and Collegiate. He served five years as a Licensed Lay-Evangelist in The Church Army engaged in parochial and Juvenile-Family Court Welfare work in Ontario.

It is paying scant honour to say Bishop's will remember his stay from '44 to '48. Divinity owes much to him for two successive Skinner Debating triumphs; I. U. D. L. and Inter-Year audiences also applauded. But Publications are his legacy to Bishop's; Assistant Editor, Editor-in-Chief, and President of the Mitre; this year Editor of The Year Book. He was in the C. O. T. C., and served as I. S. S. Committee Chairman for '47-'48.

Having fought the "good fight", he expects on leaving Bishop's to study Pastoral Psychiatry this summer in the States, then be ordained in the Diocese of Ottawa. Best of luck "Frank".

Thomas Hardy

Tom was born in ??? on June 15, 1926. He attended the Collegiate Institute and Vocational School in St. Catharines, "the garden city of Ontario". It was in this place that he acquired that proficiency with the "De'il's own torture"—the bagpipes, as a piper in the St. Catharines Pipe Band, that he has demonstrated on so many occasions in his four years here.

While enrolled here in the Divinity Faculty for the course leading to the degree B.A. in Theology, he has shown himself a promising, clever theologian and as a theoretical liturgiologist is in a class by himself. Apart from participation in many "Shel" escapades, his only extra-curricular effort was ????
Clarence H. Jensen

Clarence is another student who hails from the Quebec hinterland. Born in La Tuque on June 15, 1922, he received his education at the La Tuque High School from which he matriculated in 1937.

After spending three years in office work he took the Teachers' Training Course at MacDonald College. He has also taken extra-mural work from Queen's University. He gained extensive teaching experience in such places as the Gaspé Coast, La Tuque High School and Lennoxville High School over a four year period. While enrolled in the B.A. (Th.) Course, he has taken part in Dramatics, in both Minor and Major Plays. He has served at several points in the Townships in Sunday duty and is now on the staff at St. Peter's, Sherbrooke.

Benjamin A. Midlige

President of the Students' Association

Our popular Senior Man hails from Oskelaneo River, P.Q. He was educated at Point-aux-Trembles Boarding School and MacDonald College. After graduation Ben served five years at Shawville High School and one year at Laurentide School, Grand' Mere, as a French Specialist.

While enrolled here in the L. S. T. Course, Ben has not allowed studies to preclude wide participation in student activities. He organized Le Cercle Français in his first year and was cast in a Minor Play, and in the Major Play, "Miss Lulu Bett." During 1945-46 he was President of Second Year, Vice-President of Dramatics and the director of "The Family Group", on the Dance Committee, on The Campus staff and was a winning Skinner Debater.

In his third year Ben was President of Dramatics, a co-director of "Our Town" in which he also acted, and served on The Campus. His election as President of the Association in his final year has been due recognition of an outstanding record of faithful service. For the future, Ben, every success!

Robert Benjamin deBlois Wright

Just "Bob" under that formidable full-dress moniker (which is now prefixed with a Rev.) was born in Toronto on April 4, 1924. There he attended Wilkinson Public School and East York Collegiate Institute.

While following the course leading to the degree B.A. in Theology, he has found time for a well rounded measure of activities. In athletics Bob played Senior Football, Inter-Year Basketball; has acted as Inter-Year Hockey Manager and on the Athletics Executive. He was a member of the C.O.T.C. and also a debater in his first year. He has contributed often to college publications. In '46-'47 he was Secretary-Treasurer of the Guild of The Venerable Bede. He has undertaken Sunday duty in nearby parishes and given time to church and fraternal activities outside the college. For the immediate future his work lies in a curacy at St. Paul's in Ft. William, Ont.
"A little nonsense, now and then, is relished by the best of men."

Athletics

Resume a Major Role
ATHLETIC EXECUTIVE

Seated: G. Johnston, A. Lee, Professor G. Whalley, Honorary President.

The Athletic Executive

The Athletic Executive were faced, this year, with a two-fold task. First to extend its Athletic programme to as high a level as possible and secondly, to finance such a course of action. The Association budget for Athletics, could not be raised above last year's budget. Therefore it was necessary for the Executive to raise these required extra funds. The greatest necessity was equipment, and a great deal of money had to be spent for such supplies. Transportation has always been an expensive item and this had to be remedied.

Mr. Lyman Roberts, Manager of Hockey, and Mr. Gordon Zakaib took charge of a Sales Promotion Committee to deal with an increase in gate receipts. Mr. Stephen May became Athletic Publicity Manager. The Secretary-Treasurer, Mr. Robbie Gurr, was in charge of regulating the Executive's finances. To the whole Executive fell the responsibility of using the monies at their disposal in such manner that the greatest benefits would result.

Messrs. Roberts, Zakaib, May and Gurr with their respective committees did a very excellent job, and as a result of their efforts, plus the very generous donations that were received, financial success became fact, not fiction.

Athletics

To the Senior Rugby team can go a great deal of the credit for again giving to Bishop's a winning spirit. After early losses to McGill and Loyola they came back strongly to defeat MacDonald and Dawson. The Basketball team in the Inter-Collegiate league defeated McGill, Loyola, University of Montreal, and Dawson, but lost out to Sir George Williams and MacDonald. The Badminton team won the St. Francis Valley Championship. The Senior Hockey team, entered this year in the Massawippi Valley Hockey League lost out in the semi-final playoffs, but enjoyed a very full season of good hockey.

To the players, the coaches, the Students' Council, to the Faculty and the Student body for their fine support of the teams, and to the Athletic Executive must go the credit for a successful year.
SENIOR FOOTBALL TEAM

Football

“A good job well done” may be said heartily, and more than once, of the 1947-48 Football Team. For the past seven years, sports at Bishop’s sank to an all-time low. This year, beginning with football, athletics have once more come into their own.

It was determined by the Athletics Executive, that finance would not be a barrier to the fielding of a good football squad, and that only the standard attained by the players, and their own enthusiasm, would be factors in the success or failure of the season. The season was a success, and all those who “sweated it out” for those six weeks are to be congratulated. For some men who received little mention played as great a part in helping the team to a successful season, as did the star players.

Chester Sobolewski, or “Ski”, proved to be the best coach that the University has ever had. His ability spoke for itself in the final assessment of what everyone now knows was “a real ball club”. This tough little American brought with him an excellent coaching ability, and a new system—“the American double wingback formation” as adapted to Canadian rules. It was used with great success at Bishop’s despite the difficulty in fitting in raw recruits in the new system. Once its fine points had been learned, and every man knew exactly what was expected of him in the numerous plays, the team began winning their games. It was unfortunate that “Ski” had not time to train players of some experience in these new formations, let alone those who had never played before. For that reason the first four games were lost, but the last three were won by wide margins—a fact which speaks convincingly.

The league consisted of teams from McGill, MacDonald, Dawson, and Loyola. The first game of the season, and the only four-point game, was lost to McGill. Three more successive defeats might well have broken the morale of the team but to the “boys” it was simply incentive to harder work. The last three games against MacDonald, and Dawson (two), were, in their winning scores, ample reward for such effort.

It is sincerely hoped that this year’s team will have been but the first of many “real ball clubs” whose praises will long resound on this campus.
SENIOR HOCKEY TEAM

Second Row: C. Rockus, Assistant Manager; L. Roberts, Manager; J. Murray, R. Howard, B. Day, W. Price,

Senior Hockey

This past year has been characterized by an energetic effort to bring sports at the college to a point where the teams could EXPECT to win championships, and nowhere was this spirit in better evidence than in the hockey played by the Senior Team. With Fred Byrne of Lennoxville as Coach and aided by good ice conditions and efficient management, the team began enthusiastically and stayed with the game right through to the play-offs.

The start of the season saw thirty players turn out for first practices which was an excellent indication of the interest displayed throughout the college. The final seventeen picked by Coach Byrne started practice in December and played the first of fifteen games in January. The Massawippi Valley League was no "kid-glove league" and although we did not win either of the two trophies offered, we did stand out as a team able and willing to give and take along with the best.

It is of interest to note that in defeating Ayer's Cliff 6-0 during one of the regular league fixtures, Bishop's earned its first shutout since 1943. Incidentally, the honour on both occasions was gained by Goalie Gordie Bown.

In addition to the regular league games the team played two exhibition games. One was against the 74th Battery at Rock Island and the other was against the East Angus Juniors. This latter game was played as part of the East Angus Winter Carnival.

Early in the season W. J. Price was chosen team captain and was responsible in no small degree for the fine spirit and drive displayed by the team at all times.

We are deeply grateful to both Col. Grier and Mr. Patriquin of Bishop's College School for their kindness in granting us the use of the school rink on several occasions.
Senior Basketball

This year Basketball has become exceedingly popular at Bishop’s. The Senior Team put up an excellent showing in the Eastern Intermediate Inter-collegiate League, by winning five out of eleven scheduled games.

With the addition of three new players from Thetford Mines to the greater part of last year’s strong team, the senior cagers first chalked up a 40-38 victory over the University of Montreal quintet. They continued by winning three of the four following contests. Their luck changed however, and they lost five of the remaining six games.

Teams included in the league were, University of Montreal, McGill, Loyola, Dawson, Sir George Williams, MacDonald, and Bishop’s.

The Dawson-Bishop’s game was probably the best of the season here. The whole team played exceptionally well, and Jim Blevins established new league record by chalkling up twenty-nine points. Nearly all the home games were very close in the scoring by both teams, and so proved exciting to players and spectators alike. Through the courtesy of the Sherbrooke Regiment, all home games were played at the William Street Armoury in Sherbrooke, which provided a better floor for the team, and more accommodation for spectators.

The team consisted of six forwards: Blevins, Bailly, Dickson, Johnston, Pharoe and Vaudry; and four guards: Andrews, MacFarlane, Turnbull and Visser.

The support given by the Athletic Executive, and the student body at large, instilled in the team a spirit which helped tremendously in making this season so successful.
Intermediate Basketball

This year, for the first time in Bishop's history, the College was represented by two basketball teams. After the Senior squad had been entered in the Inter-Collegiate League, it was decided to form a second team to play in the local Intermediate League. This was to give players who were not quite good enough to make the first team a chance to play a lot of basketball.

It took some time to get the squad organized and as a consequence the first 5 games were dropped, 3 to the strong Sherbrooke Independents, and 2 to the Sherbrooke Y. M. C. A. The next two games against the Y were won, and the two teams ending the season tied for second place, a sudden-death playoff game was arranged to determine which team should meet the Independents in the final. The game was played at the Y. W. C. A. and Bishop's, sparked by the sharp shooting of Stanley, Dickson and Stuart, and the great defensive work of Greene and Bown managed to win out by a decisive 48-35 margin.

In the final round the team lost to the Independents, 57-21. The first part of the game was very close with the Independents ahead, 19-12 at half time. In the second half the Bishop's boys just couldn't find the range at all and the fast Sherbrooke team streaked ahead to win the series.

Bially, Stanley, Dickson, Watts and Stuart were the team's most consistent scorers while Greene and Bown bore the brunt of the guard duty. Chuck Staples came to the squad late in the season and proved to be very effective.

All but two players are expected back next year and with more practice and experience the team should do quite well.

The squad was composed of: Forwards—Bially, Stanley, Dickson, Watts, Hanna, Lloyd and Stuart. Guards—Greene, Bown, Komyer and Staples.
INTER-YEAR HOCKEY CHAMPIONS

Front Row:  H. LLOYD, C. BUCKIN, D. ROWAT, B. WALTERS, D. WILSON, N. BARRETT.
Second Row: M. BIRCHWOOD, Manager; C. COOK, J. BLEVINS, J. MACFARLANE, D. HIBBARD, H. ANDREWS,
            M. VIPOND, D. TOWSEND.

Inter-Year Hockey

Intra-mural Hockey met with considerable success this year. Games were run off as scheduled except for a period of mild weather toward the end of the season which forced postponement of some matches. However, these were played at a later date at the B.C.S. Arena, and when ice conditions permitted, at the college rink.

A plan was introduced whereby sticks deemed unfit for the use of senior players were handed over to the Inter-year teams. This represented a financial saving as well as a convenience for all concerned.

During regular league play, Third Year was eliminated from a play-off spot although they played rugged hockey and put up stiff resistance in some games. Second Year ended the season in first place, winning three games and drawing one. This was a 2-2 stalemate against the freshmen in their last game. The frosh, losing only one game to Second Year, earned the right to enter the playdowns for the Inter-year Championship.

This year a best two out of three final series was played. In the first game, at the college rink, Second Year eked out a 4-3 decision over an aspiring freshman team. However, the series was evened up, when First Year gained a 3-2 victory at the B.C.S. Arena. Both teams now entered the final game on even terms. Nevertheless, Second Year, by virtue of a 5-1 win at the college rink, won the title for the second consecutive season.

Besides playing their regular games, the freshmen played two exhibitions against Lennoxville High School. A post-season game between the Senior Team and an "All-Star" aggregation of Inter-year players was arranged by Mr. Gordon Zakaib. In a wild and woolly brawl at the B.C.S. Arena, the Seniors trounced the "All-Stars" by a score of 7-0, as was to be expected.

A successful season of Intra-mural Hockey was thus concluded. Congratulations should go to Second Year for their fine showing, and thanks also to the Manager of Hockey, Mr. Roberts, for his efficient work with Minor Hockey this year.
INTER-YEAR BASKETBALL CHAMPIONS

Inter-Year Basketball

This year Inter-Year Basketball has once more achieved its aim; that is, to provide relaxation and competition for those students unable to play on University teams. Rivalry has been keen throughout the league (as evidenced by the many games won only by a single or two points), and, now that the dust has settled, Second Year stand out as champions.

The playing dates and rules were more complicated this season due to the many activities around the college, and to the new rulings which had to be made as regards players from the Intermediate team. However, everything was settled quickly and amicably under the able direction of “Squirt” Johnston, Tony Lee, and the committee of team representatives.

At the end of the regular playing season, Second Year had 6 points while First and Third Years tied with 4. The subsequent play-off game between these teams was won by Third Year 27-26. In the finals, however, Second Year held the Seniors in the closing minutes of the game to win by 3 points, 27-24. Actual scoring statistics, especially fouls, have already been forgotten.
THE BADMINTON TEAM

Seated:  I. HIBBARD, J. BAGNALL, Captain; MRS. J. BAGNALL.
Standing: G. WATTS, A. BURT, A. LEE, K. THOMPSON, G. SCURT.

Badminton

The University Badminton Team this year, in completing a most successful year, boasts one of the finest records that any Bishop's team has had in quite some time. The "purple and white" has visited such places as Granby, Sherbrooke, Danville, and Windsor Mills, and has, upon each occasion, done admirably. This year, for the first time, Bishop's took the St. Francis Valley Championship, the highest award for team play in the district. The Badminton team has put forth some very strong players, and Bishop's was fortunate in drawing two excellent players from its alumnus, Miss Kay Thompson, and Mrs. John Bagnall, Jr.

Throughout the year the gym rocked as these enthusiasts of the bird and racquet carried on their matches against visiting teams, and there was also held men's singles championship within the College itself. The Men's Singles championship went to Jack Bagnall. Bishop's may well be proud of the team this year, and its members, whose names appear below, have received praise for the good sportsmanship that they have displayed, and for their hospitality towards visiting teams. To this fine group of athletes we say "Bishop's is proud of you, and your names will not be forgotten in the realms of Badminton".

The following are the names of those who played for the team:

Charles Worthen  Mrs. John Bagnall
Alice Bayne       Miss Kay Thompson
George Scurt      Miss Audrey Burt
Geoffrey Watts    Miss Isabel Hibbard

John Bagnall, (Manager and Captain)
SKI TEAM

Front Row: D. Wilson, A. Price.
Middle Row: B. Kelley, G. S. MacLeod, A. Wilks, D. Casdem, O. Kiar, R. Gurr, R. Robertson.

Skiing

This year saw much activity in the field of skiing. This was due chiefly to two factors, good ski conditions and also a very active ski executive. Johnny Ouellet was President and Art Wilks was Vice-President with "Olly" Kiar acting in the capacity of Secretary-Treasurer. Tony Price did a very admirable job as Captain of the Ski Team.

At the Ski meet held on February 2nd, a cross country sponsored by Bishop's, 60 people took part in the race with Bishop's placing first, with the team being made up of R. Robertson, W. Rowe, B. Kelly and Johnny Ouellet. On February the 22nd, a down hill slalom was held at Hillcrest in which Bishop's placed second in a seven team competition. Later in February Bishop's again placed second in a 12 mile relay cross country. On March 7th Bishop's entered the longest downhill contest of the season at Mount Orford. Tony Price, representing Bishop's placed third in a field of 45 entrants. Representing Bishop's at this meet were, Tony Price, Dick Stewart, Don Wilson, Robbie Gurr, Ronnie Robertson and Brian Kelly.

And so skiing at Bishop's for 1948 has become history. Next year Bishop's will probably progress even further in ski activities, judging from the enthusiasm with which skiing was taken up this season. Hardly a day passed this winter without some skier or group of skiers strapping their skis on and proceeding either to Hillcrest or to Herring's Farm. And so we wax up the old hickories and store them away until next winter. Not without fond regrets do we see the last layer of snow disappear and the first blade of grass appear.

The Board of Secretary-Treasurers and Business-Managers

This year marking the beginning of a new era in the history of Bishop’s, it was decided to form a Board of the Secretary-Treasurers and Business-Managers of the various activities. The necessity for such a board was realized with the growing interest in university activities and the necessity of larger budgets. Though there was no appreciable increase in Council allotments this year, more money was handled through the increased gate receipts in sport activities and the increase in ticket sales from dances and plays.

The new Article XIX of the Constitution states, “The purpose of the board shall be to co-ordinate the finances of the various activities of the university”. Though the Board was not very active this year, it will be of real value next year and in future years in reviewing of budgets, giving aid and advice to new members of the Board, and above all in the formation of definite financial and business policies for the various activities of the university. In this way the extra-curricular finances of the university will be put on a much firmer basis. Such a foundation is an absolute necessity if the ideals of expansion in Bishop’s are to be fully realized.

We hope that future students will see the value of a Board of Secretary-Treasurers and Business-Managers, and that it will receive the support of everyone interested in Bishop’s as a growing institution.

Publications Award Instituted
Board of Publications

Although the work done by the Board has not been spectacular, it has accomplished much during its first year of operation. It has successfully co-ordinated the work of the three publications and brought about a healthy and salutary measure of co-operation. Meetings have been held regularly and the decisions made and work completed have assisted the Student Council materially.

The Board was created in the spring of 1947 after a number of stormy but fruitful sessions. Francis Gooch and Maxwell Seeley of the MITRE and YEAR BOOK, and John Harrington of the CAMPUS, assisted in large measure by an able conciliator, Wm. C. McVean, worked out the details of the compromise, while the "constitutional headaches" were the handiwork of Francis Gooch, Council Member for the MITRE. Max Seeley was elected in the subsequent elections the First President of Publications, replacing the old post of President of the MITRE on the Student's Council. Jane Farrar was elected Vise-President by the Women's Association, and during the year acted as Secretary of the Board. Each publication was represented on the Board by its executive chief and two other important officials.

The accomplishments have included a real measure of success in re-writing and amending the Publications' Constitution, the setting up of a Publications Award, the clarification of the tax payments of the CAMPUS, a monthly discussion of advertising and financial questions, as well as problems of policy, personnel and printing.

The present Board has left a well organized unit which should be able to cope effectively with the increasingly difficult task of printing three diversified publications in the coming period of increased costs and a more limited potential advertising revenue. It is generally felt that if this progress is to continue, there must be 100 per cent circulation support from the student body. By no other means can deficit financing be avoided, than by expanding this alternative source of revenue to replace declining advertising returns.
THE MITRE

The Mitre

The fifty-sixth year of publication has been noteworthy in many respects.

The Mitre lost its Honorary President of many years in the death of the Reverend Frank Gifford Vial. His place has been taken by the Professor of English, Dr. W. O. Raymond, who has long been a faithful member of the Mitre staff.

Then again it was the first year of operation under the new constitution, whereby the Editor and his staff had full control of the publication, under the surveillance of the newly formed Board of Publications. A good relation between costs and revenue has been maintained, under the capable direction of the Secretary-Treasurer. Special mention must also be made of the remarkable job done by the Advertising Manager, in soliciting advertising to meet unprecedented printing costs.

A good literary standard was set in the Michaelmas Term Issue which was maintained in the subsequent numbers. There was a large percentage of outstanding contributions.

The Staff was headed by Jonathan Robinson, the Editor-in-Chief, who was aided by capable, hard-working members. Valuable assistance was given at meetings of the Literary Board by Professors W. O. Raymond, S. Childs, G. C. Whalley, and by the newly appointed member, Mr. L. Evans.

It is sincerely hoped that The Mitre, backed by full college support, will continue to be a credit to the University.
THE CAMPUS

Seated: L. MacDonald, C. Leggo, R. Jervis-Read, J. Harrington, Managing Editor; W. Rowe, I. Hyndman, M. Mitchell.

The Campus

This year The Campus has progressed from a state of practical bankruptcy to one, if not of actual wealth, at least to that of sound financial footing. The Campus began the year with a four hundred dollar deficit and by the end of the year was out of the red and was enabled to present a bound copy of the year’s issues to each member at a banquet held at the end of the year.

This was partly due to the fine job done by the advertising manager, Mr. R. Howard, and partly to the change of printers with a consequent drop in cost, of approximately twenty-five per cent from last year.

The actual composition and make-up of the paper has improved with experience. The news has been more varied, and although sports has had large coverage, it has not been disproportionate. The change in size of type from eight point to six point allowed longer articles in the same space as used before.

The use of a cut in almost every issue has also improved the general appearance of the newspaper. Due to the fact that the extra-curricular activities have been much greater this year, news stories have had a wider interest and the staff were able to run stories on the later events, and no story was over a week to ten days old. The staff feels that the newspaper in two or three years might be published weekly instead of bi-monthly, provided the advertising market does not continue to follow its present downward trend, with respect to supporting the various college publications.

All in all, The Campus has had a very successful year, and has not been in too much trouble either with the Students’ Association—or the Faculty.
YEAR BOOK STAFF

M. Hamilton, Recording Secretary; F. Gooch, Editor-in-Chief; G. Adams, Woman Editor;
J. Bow; Advertising Manager; A. Robertson, Assistant Advertising Manager; J. W. Smith, Women's
Association Representative; S. Ev; D. Townsend, Art Editors.

Absent: Rev. T. Gibson, Divinity Representative.

The Year Book

Much of the work that is involved in the preparation of The Year Book is done, so to speak "behind the
scenes" in the months preceding publication. With this nineteenth edition in your hands you may be in-
terested in a few facts and figures related to this particular student activity.

The responsibility for the whole task of producing your college annual rests with the Editor-in-Chief and
the staff which numbers fifteen. Their work comes under the general surveillance of The Board of Publica-
tions, through which body The Year Book Staff is answerable to the Men's Students' Executive Council by
whom financial risk for this publication is undertaken. The Year Book Staff is divided into two groups, the
Executive, and the Representatives. The former consists of the Editor-in-Chief, the Woman Editor, the Art
Editors, and the Business and Advertising Managers. The latter group is made up of two Third Year Rep-
resentatives (one Resident, one non-Resident), and one Representative each, for the Education and Divinity
Faculties, for the Women's Association, and for First and Second Years. For greater efficiency and co-opera-
tion in the work for this edition, the staff met monthly in all but the Trinity Term.

This year production costs have increased some 20% over the last issue. The total cost for printing and
binding, for engraving, for photography, and other sundry items, means that each copy of The Year Book
costs approximately eight dollars and fifty cents. You still pay five dollars per copy, the same price as charged
in 1941. The difference is made up by selling advertising, which with subscriptions, comprises our only source
of revenue. This year a peak was reached both in subscriptions and advertising, and for once The Year Book
may show a small profit.

While credit for the success of The Year Book belongs to the staff as a whole, it is only right that special
recognition should be given where merited. The Editor-in-Chief wishes to express appreciation especially
for the valuable assistance given by the Woman Editor, and by the Third Year and Women's Association Rep-
resentatives, in proof-reading and copy preparation; for the skilled work of the Art Editors; and for the per-
severance and efficiency of the Business and Advertising Managers and their assistants. Although not an
official member of the staff, Jim Visser gave much valuable assistance in supplying enlargements of pictures
for the Compo pages.

You have now the opportunity of assessing the merits of our work. We trust that it has been such that
this copy of Bishop's '48 will mean much more to you, perhaps even bring a lump to your throat, as you leaf
over its pages again, ten, twenty, thirty years hence.

Dramatics

Produce "Barretts of Wimpole Street"
Dramatics

The Minor Plays were successful! Why? Because the Dramatic Society worked together and also because they were blessed with a good deal of talent in First Year.

This year the three one act plays were presented to the public on November the 20th and 21st. The plays were: “If Men Played Cards as Women Do” by George S. Kaufman, and directed by Stephen May; “A Collection Will Be Made” by Arthur Eckerley, and directed by Louise MacDonald and Margot Mitchell; “The Lampshade” by A. S. Milne, and directed by James Tiller.

All three plays were well received by the public, although “The Lampshade” in the general opinion of the audiences was the best play. It certainly proved to be the most exciting, in depicting the story of a famous English criminal lawyer who, gone mad, tries to murder his best friend, an equally famous member of Parliament.

The plot of “A Collection Will Be Made” is rather curious and involved. The Rev. Cuthbert Cheese is mistaken for a famous London detective by two high class thieves, who believe he is after them. In reality he is trying to recover his brief case, which got mixed up with that of another clergyman, the disguised London detective. After being paid various sums to leave the hotel the Rev. Cuthbert Cheese receives a telegram from the detective, telling him to wait for his brief case, since he is coming to the same hotel.

“If Men Played Cards as Women Do” is a short ‘curtain raiser’, affording much humorous mimicry of the way women are supposed to play cards.

This year the Executive was comprised of Dr. McCubbin as Honorary President; D. N. Stoker as President; J. D. Tiller as Vice-President and President-elect; Louise MacDonald was the Second Vice-President; S. G. T. May, Business Manager; Brian Kelley, Secretary-Treasurer; Ole Kiar, Stage Manager and Margot Mitchell the Women’s Associate.

The Executive would like to thank the Council, the Students’ Association, and their Honorary President for their co-operation this year, without which our various activities could not have succeeded.
MAJOR PLAY

Major Play

Under the able direction of Mr. Lewis Evans, Bishop's Dramatic Society produced "The Barretts of Wimpole Street." This play has long been a favourite among amateur productions. Since 1931, when Katherine Cornell first produced "The Barretts of Wimpole Street" in Cleveland, Ohio, it has been presented in universities throughout Canada. Bishop's actors have taken no second place in helping to enhance the reputation of Rudolph Besier's stirring drama.

The casting was difficult this year with the abundance of talent displayed by the students. The characters chosen deserve credit and praise for their performances.

The theme of the play centres about Elizabeth Barrett and her fight for life against many odds, chiefly her father, Edward Moulton-Barrett. The first scene introduces her in very poor health and portrays the efforts of Dr. Chambers to counteract it. We watch the various members of the family moving like automata through the tension caused by their father. In the second scene Robert Browning launches his dynamic personality against this background to fight for the woman he wants more than life. Under these circumstances the story of hidden love and suppression unfolds until in the last scene Edward Moulton-Barrett is confounded and true love triumphs.

Miss Elaine ("Buddy") Evans, as cousin Bella Hedley gave a splendid performance. Her supporter Mr. Byron LaBonte in the part of her fiance, Mr. Bevan, was equally good. Miss Louise MacDonald filled the role of Henrietta as splendidly as did Barbara Wark that of Arabel. The stammering Uccy (our Ronnie Robertson) fitted perfectly in his setting. Miss Marion Burt as Wilson could not have been much better. The performances of Miss Margot Mitchell, and Mr. Bob Jervis-Reid, as Elizabeth and Edward Moulton-Barrett were very good. These two had difficult roles. Their parts were big and not easy to interpret but we can assure them of the success of their hard work. The human dynamo Robert Browning, was portrayed by James D. Tiller (sideburns and all). The doctors, Messrs. Stephen May and George McClintock are to be commended for their good jobs and especially on producing those beards.

The Dramatic Society would extend its thanks, first to the members of the cast, who alone know the sacrifices that a major play demands, to our esteemed director, Mr. Evans, and to Professor and Mrs. McCubbin, Miss Audrey Burt, Miss Daisy Cassim, Miss Joyce Andrews, Jack Waite, Ole Kiar, the Rev'd. Thomas R. Gibson and the Dramatics Executive.

Literary and Debating Society

I won't miss!

You won't be missed!!

Sponsors first Bilingual Exchange Debate
LITERARY AND DEBATING SOCIETY EXECUTIVE

Seated: C. Legue, J. Turpin, Professor S. Childs, J. Ouellet, L. MacDonald.

Literary and Debating Society

The Literary and Debating Society inaugurated this year a series of Exchange Bilingual Debates with Laval University. Our representatives at Laval were R. C. Setlakwe and J. J. Dunn, while our home contestants were W. Rowe and O. A. Hopkins. The object of the debates was to promote an understanding and friendly relationship between these two universities. Credit for this undertaking should be given to the President of the Society who contacted the President of the Debating Society at Laval.

Other activities of the Society were participation in the Inter-University Debating League, the Skinner Trophy Debates, the Inter-Year, and the Radio Debates. Unfortunately not as much time as was necessary could be devoted to preparation for the I. U. D. L. Debates, due to the postponement of the Christmas examinations, and consequently we lost, in the preliminaries to Loyola and Saint Patrick's College. However our debaters are to be congratulated for their efforts. They were M. G. Birchwood, H. E. Lloyd, R. S. Jervis-Read, and J. Harrington.

The Skinner Trophy was won for the second consecutive year by the Arts and Science Faculty. The members of that faculty are proud that they have tied the Divinity faculty in the number of victories, each side having won the trophy thirteen times, although in all fairness it must be admitted that their consecutive victories were both on a basis of only two debates.

During the Michaelmas term the usual Inter-year and Inter-house Debates were held in which freshmen and co-eds participated. However, the debating year was featured by five Radio Debates and one Radio Forum over CKTS made possible through the generous sponsorship of Rosenbloom's Men's Store, Sherbrooke.

The Debating Executive extends its sincere thanks to Dean Jones, Professor Childs, and the Women's Council, whose generous hospitality, extended to the debaters and the judges was a large factor in making the debating year successful.
I. U. D. L. DEBATERS
Left to Right: H. Lloyd, M. Birchwood, R. Jervis-Read, J. Harrington.

BILINGUAL EXCHANGE DEBATERS
SKINNER TROPHY WINNERS, ARTS AND SCIENCE

Seated: M. Birchwood, R. Setlakwe, J. Harrington.
Standing: D. McVie, R. Howard, W. Rowe.

Debating Awards

The debating awards are issued to anyone who has participated in one inter-house or inter-faculty debate, one Skinner and one inter-university debate during his stay at Bishop's.

The awards for 47-48 are as follows:

R. C. Setlakwe
W. L. Rowe
W. D. McVie
M. J. Birchwood
F. J. Harrington
H. E. Lloyd
R. Jervis-Reid
"Aw—I guess I'll go to a show!"

Worthwhile Activities for All
Biology Club

During its third year of existence, the Biology Club—Bishop's only scientific club—has continued its varied activities.

Several guest lecturers were invited to the monthly meetings, among whom were Dr. Pady, Associate Professor of Botany at McGill University, whose talk on "Witches Broom" was illustrated by a series of exceptional Kodachromes. Dr. Boyes, Chairman of the Dept. of Genetics at McGill University spoke on the "Scope of Genetics", and Mr. Finn, soil expert from the Lennoxville Experimental Farm gave a paper on "Soil Depletion by Crops."

Other programmes were selected from the numerous films which are available. Highlighted were, "The River" a striking film on soil conservation made in the Tennessee River Valley, and "Realm of the Wild", a beautiful technicolor reel on the preservation of wild life.

Two excursions were organized; one a trip to Montreal to visit the Redpath Museum, Montreal Botanical Gardens, and various university laboratories. The other a semi-scientific expedition to Mt. Orford. Drs. Pady and Gibbs of McGill University joined the party on this occasion.

Through arrangement by the B.B.C. members of the club and other students were able to take a First Aid Course given by the St. John Ambulance Association.

Again this year the Biology Club sponsored a Science Exhibition, this time on an expanded scale, and in conjunction with members of the other science faculties. Plans were made at the request of members of the Quebec Division of the Canadian Medical Association, meeting in Sherbrooke on April 23rd and 24th. For this reason exhibits were centred on those aspects of our work which most interested medical men. However, high school students throughout the district and the general public were invited.

This year's officers were: Dr. A.N. Langford, Honorary President; Allan Sutherland, President; Crossley Lougheed, Vice-President; Joyce Andrews, Secretary-Treasurer.
Current Events Club

Youngest among the various organizations at the university, the Current Events Club made its 1947-1948 season even more successful than the previous one. At a meeting held early in the year the club decided to continue with the same executive as had been elected at the original meeting at which the club was formed last year. Lyman Roberts held the office of Chairman, while Leon Berlin acted as Secretary. These men should be congratulated heartily as it is due mainly to their untiring efforts that the organization had so successful a year.

The first part of the agenda continued last year's policy of inviting speakers to give papers on various topics of current interest. Frank Gooch spoke to the members on, "Student Government at Bishop's", and Professor Preston gave an address on the Palestine problem. These meetings were well attended and for the first time women students were present. Another meeting under this portion of the program has been planned for the latter part of the year when the subject, "The Bishop's of To-morrow", will be discussed.

During the second term the Current Events Club introduced something new into campus life at Bishop's. The club organized meetings, open to all students, at which representatives of the various national political parties were asked to state their parties' policies. This idea was enthusiastically received by the students and large numbers turned out for each meeting.

The Progressive-Conservative party presented its views at the first of these meetings, with Maj. E. D. Fulton, M.P. for Kamloops, B.C., President of the Young Progressive-Conservatives of Canada, representing them. The second meeting heard Professor Frank Scott of McGill, National President of the C.C.F. party, who described the history, organization and ideas of his party. The last of these meetings was held in March, when R. H. Winters, M.P., Parliamentary Assistant to the Minister of National Revenue spoke for the Liberal Party.

The speakers were closely questioned by members at the end of each session. These political "free for all's" were particularly stimulating and the standard of the questions asked was most gratifying. It is to be hoped that the club continues its activities in the future and thus help to fill a long felt need of the students.
The Glee Club

Early in the Michaelmas Term, in view of the great number of people who raised their voices in song, in the lower corridors after meals, an attempt was made to revive the Bishop's Glee Club of past years. This activity has been in abeyance since the early war years when the R. A. F. personnel visiting the university often provided a nucleus of singers. Under the capable direction of Professor J. W. Mc舅舅in, the club was once again a success, and the Dean's lecture room, usually reserved for the droning of Greek and Hebrew conjugations, or at best lively hymn tunes at choir practice, rang to the sounds of this boisterous fledgling, trying out its wings.

After sorting out the motley crew as to vocal ability and range, Dr. McCubbin began the arduous task of producing vocal quality. "Dear Land of Home" or "Finlandia" by Sibelius; "Casey Jones"; "All Through the Night" and "Indians are High Minded" soon received a final polishing, and the club went on to greater things. Dr. McCubbin and the boys made their debut at the Athletics and Awards Banquet, and their efforts on that occasion were very much appreciated.
The History Club

The club held six meetings during the academic year at the home of Dr. and Mrs. Masters. The programme consisted of a study of the regions of Canada. The following papers were read by various members:

Maritime Grievances; Real and Imaginary; Quebec; Some Aspects; Ontario and Colonialism; Western Railway Policy; British Columbia; and The Yukon and the North-West Territories.

These topics proved extremely interesting, and presented the social, political, and economic problems with which the various areas of our country are faced. A short survey of the history of each region with an examination of its growth threw some light on the underlying causes of our difficulties, and helped us to appreciate the position of the provinces to-day, both relative to each other and to Canada as a whole.

This year’s Executive consisted of Dr. Masters, Honorary President; Sid Irwin, President; and Jon Robinson, Secretary-Treasurer. Early in the Michaelmas Term Sid Irwin resigned as President and Peter Kingston was elected by acclamation to succeed him. There were twenty-five members and many guests were invited to the meetings.

At the Annual Meeting in April we were addressed by Professor R. M. Saunders of the History Department, University of Toronto.

It was decided this year to place the club on a financial basis and fees were collected to meet the expenses of the guest speaker. The kindness and generous hospitality of Dr. and Mrs. Masters, assisted by Mrs. D. Lewis and wives of other members, has won a reputation of no mean proportion on the campus.

One of the aims of the History Club has been to provide an opportunity for free and open consideration of topics of current and historic interest. In this respect the club has been very successful for the papers were followed by healthy, enthusiastic, and it is hoped, helpful discussion. We trust that in years to come the club will continue to serve this purpose with increasing success.
The Music Club

The Music Club has continued through a second year. The group was not very large at any time, but was faithful in its attendance. Small groups are certainly advantageous for discussion purposes, yet it would seem doubtful whether many in the university are interested in "classical" music. Meetings were held only bi-weekly due in part to lack of time, and in part to a shortage of available records. Unless other sources are found, there may be soon no more new records to be played.

The music for each programme usually consisted of a major work — a symphony, a concerto or a suite — accompanied by, and contrasted with miscellaneous works. Each programme lasted about one and three-quarter hours. The criticism, that the programmes are dull, is in part true, but we can only use the records made available to us.

Unfortunately many people seemed to think that the best part of each programme came after the music, when refreshments were served. Professor and Mrs. A. G. Whalley have acted as our hosts for many of the meetings, for which we are indeed grateful. They have also prompted many lively and often interesting discussions. Professor and Mrs. A. V. Richardson also were hosts to the club in a delightful evening which will be long remembered by those present.

We hope that the Music Club may continue through many years as an increasingly important activity among the minor clubs at Bishop's.
The Veterans' Society

The Veterans' Society enjoyed a second successful year, although its activities were not as extensive as in its first year of operation. Several meetings were held, and two delegates were sent to the National Conference of Student Veterans, held in Toronto, during the Christmas recess. Tony Lee and Doug McVie attended the Conference, and the latter was elected President of N.C.S.V. for the forthcoming year.

The second annual Veterans' Dance was held in the New Sherbrooke Hotel. For the first time since the war, a formal was introduced, and it was a great success. A large crowd attended, and under the patronage of Dean and Mrs. Jones, and Col. C. Grier, the dancers enjoyed themselves immensely.

One of the largest items on the year's calendar of events, was the announcement that, through the efforts of the N.C.S.V., an increase in allowances had been granted to all married student veterans, and all single student veterans with dependents. This relieved at least some of the financial stress among the veterans in the university.

For the second consecutive year, Doug McVie was elected President, and John Harrington Secretary-Treasurer, while Dick Turpin filled the post of Vice-President. Tony Lee and Malcolm Stanley completed the executive as representatives.

Women's Activities

AND DID YOU SEE HER DURING HISTORY 2? WHY I THOUGHT I'D DIE BUT OF COURSE YOU WON'T SAY ANYTHING
Women's Basketball Team

This year the Bishop's Women's Basketball Team was entered in the Eastern Townships League. After Christmas the team was compelled to withdraw from the league due to the deferred Christmas Examinations.

Therefore the team was able to play but one scheduled game—that with the nurses from the Sherbrooke Hospital.

The team was under the able leadership of Barbara Stevenson. Gina Northridge, Third Year, and Marion Burt, First Year, were new members who contributed much by their enthusiasm and willingness to learn. The whole team responded well to the expert coaching of Doug McVie.
Women's Hockey Team

The Women's Hockey Team played only one game this year—"the annual comedy"—against the Divines. The fast-skating female puck-chasers scored a 3-2 victory, but perhaps the curious set of rules for this novelty match had something to do with that score. For the Divinity team are allowed, by these rules, to have only one hand on the stick, and are forbidden to lift the puck or to body-check. Then too, if a player of the Women's Team falls, the nearest Divine is put off the ice no matter whether he was within six inches or six yards of the unlucky lass.

The team was ably coached by Bob Howard of First Year, and was led by Louise MacDonald. "Paddy" Lampman, Second Year, and Marion Burt, Barbara Wark and Betty Loveland, all of First Year, were the newcomers to the team.

Dance Committee

It was early last fall when eager but timid freshmen straggled cautiously into the Bishop's gym to go to the opening dance of the college year. It was the Introduction Dance and they were not disappointed. Between conversations everyone had a good time.

The Dance Committee also arranged to have Tea Dances following home football games. These dances proved to be a treat for everyone concerned and it was especially appreciated by the boys who had "sweat it out" on the gridiron all afternoon under a hot sun.

The next gala dance of the year was held in November. The college orchestra donated its talents to the cause with the result that sweet music flourished for the enjoyment of all.

In February the Bishop's Vets and Ski Club combined their ideas and enthusiasm to give Bishop's students THE dance of the year. The battle was pitched on "the Plains of the New Sherbrooke." Everyone enlisted and no one as yet has been reported lost or missing in action. The dance was a great success with all receiving an ample portion of revelry.

In most of the dances mentioned the college orchestra have given their time and talents. They deserve much credit and praise. The Dance Committee have shown great ability and diligence in organizing Bishop's dances this year. And now speaking of dances the question is: whither Convocation?
The Choir

The Choir this year has been rather small in numbers, but under the able direction of Professor A. G. C. Whalley, has provided a good lead for the singing at the Choral Eucharists and Matins on Sundays. Choir practice has been held in the Dean's Lecture Room after supper on Thursday or Friday of each week, and while here again attendance has not been all that could be wished, those who have attended have usually made up for the lack of numbers by the enthusiasm of their singing.

It was not found possible to hold a Carol Service at the Christmas season this year, under the disturbed conditions then prevailing, but it is hoped that this honourable Yuletide custom will be revived next year.

SHERBROOKE, QUE.
WHAT PRICE PERFECTION?

Years of research... continual rejection of the mediocre, the "nearly good"... a constantly critical attitude of mind... a fixed resolution to improve service and quality of product... all this, and only an approach towards perfection is made. But eventually from this approach a company's true development and progress come into being.

We at Northern do not claim perfection, but we do accept the responsibilities incurred in striving after it... we keep it as our ultimate measuring stick and standard.

RADAR at the HELM...

The first commercial application of radar is Westinghouse Marine Radar. Now, for the first time, ships at sea have a navigational and anticollision device unaffected by weather, storms, darkness or fog.

Wesinghouse Marine Radar is already proving its worth to coastwise shipping and promises to become a standard instrument of navigation.

This latest example of Westinghouse leadership in the field of electronics is still further evidence of the skill and experience which lie behind every Westinghouse Product.
