# Selection Process

## Project Categories

The selection process is divided into three steps.

**For the first step**, a jury at each participating university will select, when necessary, no more than 2 applications per category. There are a total of 7 categories. For this step in the selection process, the participating university is in charge of appointing the members who will make up the jury.\*

**\*For the second step**, a jury made up of 3 to 5 members called the specialist jury will select the 3 finalists in each of the 7 categories and then select a winner for each category from among these 3 finalists. For this step in the selection process, Forces AVENIR is in charge of appointing the members who will make up the 7 specialist juries.

**For the third step**, a final jury called the Project Grand Jury made up of between 5 and 7 members will select the Project Par Excellence award recipient from among the 7 winning projects. For this step in the selection process, Forces AVENIR is in charge of appointing the members who will make up the Grand Jury.

## Personality Categories

The selection process is divided into two steps.

**For the first step**, a jury selects (when necessary) a maximum of two candidate applications per category, from each of the participating universities. There are four different personality categories: undergraduate, graduate, Perseverant and Committed Staff Member. During this step, jury members are selected by the participating university.

**\*For the second step**, the grand Personality jury, made up of five to nine members, selects 3 finalists in the undergraduate category, and among them, the one winners of the category. The grand jury also selects three finalists in graduate category, three finalists in the Perseverant category and three finalists in the Committed Staff Member category. Among these finalists, the jury designates a winner for each of the categories. Lastly, among the three finalists in the undergraduate category, the three finalists in the graduate category and the three finalists in the Perseverant category, the grand Personality jury also selects the Excellence Personality winner. During this step, jury members are selected by Forces AVENIR.

**\*Mandatory selection interviews:** In order to select the finalists and winners of each category, the Grand Project and the Grand Personality Juries will invite the best candidates from each categories to an interview. Interviews will be held in May or June, and those invited must be present, whether in person, by phone or by videoconference.

# Forces AVENIR +

## FOSTERING STUDENT ENGAGEMENT

**Forces AVENIR (FA)** aims to provide better funding for student engagement projects in order to foster their development at educational institutions. In keeping with its mission, and for future representations, the organization has joined forces with the **Forces AVENIR Foundation (FAF)** as part of an ambitious funding program for student initiatives.

In this context, the government has given FA the opportunity to establish a fund reserved for the Science and Technology category, through its STEM (science, technology, engineering and mathematics) program. This partnership with the Secrétariat à la jeunesse (SAJ) consists of \$4.5M in financial assistance, which will take the form of match funding, and will be combined in part with contributions from the private sector, up to the amount of \$1.5M. In doing so, by 2026, the Foundation will have accumulated \$6M in permanent capital and the usufruct of 5% will be used as a source of funding for student engagement projects in the field of science and technology.

### IMPORTANT NOTICE

It is important to note that the Québec government has only agreed to fund the Science and Technology category. FAF and FA will therefore be responsible for making the necessary representations with government agencies and private companies to extend the funding to other categories.
