Message from the President

My five years as President of the Alumni Association end July 1, 2003. I will miss attending the monthly meetings of the Executive Committee of Corporation and the spring and fall gatherings of the full Corporation made so enjoyable and productive under the guiding hand of Jim Ferrabee '57, sitting on the platform at Convocation, communicating with you through this page so astutely edited by Marie McLean, watching Pam McPhail dazzle a committee with facts and figures from the Development Office, attending a host of fantastic parties and receptions, watching the pride and happiness on the faces of those who are honoured with an Alumni Association award, and so much more.

I first volunteered to help with alumni activities more than a quarter century ago, drawn into the Association by the enthusiasm and charm of former Director of Alumni and Development, Bev Bradley '70.

At the first event we organized together, Dr. Jeff Jefferis '27, DCL '68 former Professor of Education, told the crowd that alumni should view their undergraduate alma mater as they would their mother — a nurturing and inspiring presence worthy of love and devotion. His words moved me deeply and have helped guide my relationship with Bishop's ever since.

I want to express my profound gratitude to Bruce Stevenson '76, now Dean of Student Affairs, and Matt McBrine '96 in the Alumni Office. They always seemed happy when I appeared in their office (perhaps a testament to their acting abilities!), and we have become great friends.

Members of the National Committee bring energy and enthusiasm to their tasks. They have been warm and supportive and our meetings exciting and rewarding. It has been a joy to hold this position during the tenure of Principal Janyne Hodder and Chancellor Alex Paterson. Both have been extremely supportive of our alumni community and incredibly kind to me.

To you who love and support this wonderful gem of a university, please continue to strive to make it an even better place to work and study.

Graham Moodie '69
gmoodie@crc-lennox.qc.ca
Bishop’s University has a long tradition of enthusiastic support for our teams. For the past two years, students have taken the tradition of dressing in outlandish costumes to heart, and each game sees a group of boisterous fans who try to outdo each other in their crazy apparel. Visiting teams have said they envy the enthusiastic support of Bishop’s fans.

Stuart McFarlane from Nepean loves dressing up. “It sounds so cliché, but that thing they call the ‘Bishop’s Experience’ truly is something special. You don’t understand it until you have been a part of it.” Stuart appreciates the enthusiastic support of fans as a player. “When I’m playing lacrosse in front of a rowdy BU home crowd, the energy pumps you up. It’s a unique feeling that athletes at other schools don’t experience. It is amazing to play in front of it and awesome to be a part of it.”

For Mike Mahoney from Oakland NJ, the costumes “bring a new energy to the game. We are not the originators of dressing up in ridiculous costumes but we consider ourselves good contributors in keeping the tradition alive. Every week the costumes get more creative.”

Derek Henderson from Guelph claims “the fan support at Bishop’s is the best in the country. The entire community comes together at a game. As soon as you move here to the ‘ville,’ you become a part of the ‘Bishop’s Experience.’ It’s an experience of community, friendship, loyalty and respect. Our school spirit is just part of the package.”

Dressing up at games isn’t new at Bishop’s. Do you have photos and stories? Please send them to:

The increasing diversity of Bishop's student body

When Bishop’s opened its doors 160 years ago, its aim was to provide accessible university education to the young men of Quebec, particularly those who lived in the rural areas of the Eastern Townships and the St. Lawrence Valley. In 1903, Bishop’s began to admit women to the University. At the beginning women were admitted to classes but not given full university services such as residences and the right to stay on campus, but this too changed and the first women’s residence opened in 1950.

As Bishop’s grew, it began to serve an increasing diversity of mainly anglophone Quebecers. Though nominally Anglican until 1947, Bishop’s also admitted students from other Protestant denominations, students who were Catholic and some, though relatively few, who were Jewish.

In the late 1970s and early 80s, our traditional recruitment base decreased as the English-speaking population of Quebec declined, and Bishop’s began to recruit across Canada. By now we had hundreds of loyal alumni in places as different as Oakville and Edmonton, and many of these were eager to send their own children to Bishop’s and willing to support our recruitment activities.

This began the first stage of our recent student diversity initiatives. We found our students valued meeting others from across Canada, and their experiences at Bishop’s were a source of stronger knowledge about what it means to be a Canadian, a Québécois, a Maritimer, and sometimes all of these at once.

Canadian diversity

In 2003, our Canadian student population is extremely diverse: 45% are from Québec, and of these 25% declare French as their first language; 12% are from the Maritimes, 25% are from Ontario, and 9% are from the West and the North.

These Canadian students are more diverse in their religious and ethnic backgrounds. We have also made important efforts to better serve students with special needs, whether learning needs or special physical needs. Though we do not record statistics of this kind, it is clear by the demands for new and different types of services, such as a Muslim prayer room — a demand we were happy to accommodate as we accommodate the religious needs of other students — or improved services for students with disabilities, that our Canadian student body reflects Canada’s diversity.

We are proud of this evolution. We believe we have a major responsibility to educate future leaders of this country who must be exposed to the diversity that is Canada. As a small university, we continue to offer our students the experience of joining a warm and solid community, one where members are expected to be committed to one another regardless of differences in background. We saw this clearly when the community came together last January after the fire which saw 39 students become homeless.

International diversity

To give our students opportunities to better understand the world beyond Canada, we began to build our international exchange programme. Bishop’s University Student Exchange Programme is rooted in CREPUQ (Conférence des recteurs et des principaux des universités du Québec) which, over the years, has signed agreements with institutions of higher learning in 22 countries. Since 1990, Bishop’s University itself has signed over 30 bilateral agreements with universities worldwide. In 2001, the university joined the National Student Exchange, a consortium of colleges and universities in the United States, its territories, and Canada, designed to facilitate exchange opportunities for students among its member campuses.

In 2000, 80 international students spent at least one semester studying at Bishop’s. Last year, the number decreased because of major funding changes. Previously we were funded for all students who were in our classes but not for our students who were studying elsewhere. The rules changed and we received funding only for our students who were away and not for international students who were studying here. Further, the government assumed that we were charging these international exchange students full tuition and required us to remit a portion of this tuition. As we had more students coming in than going out, as did most Quebec universities, this policy had great negative effects on our funding. The policy has now been revised, and we are now poised to welcome over 80 international exchange students next year.

In addition to welcoming exchange students, we now welcome international students (180 in 2002-03) in full degree programmes. Our focus in the coming years will be on recruiting students from the United States and the Americas generally. For the moment, our recruitment efforts remain modest, as international recruiting is expensive and current budget rules do not allow us to keep the additional fees international students are charged. International students, who comprise 11% of our current enrolment, have enhanced both the classroom experience and community life on campus.

To date, for fall 2003, Bishop’s has received over 75 applications from students from our partner institutions. As an institution with a national and international focus, our goal is that 15% of the student body be international.

Semester abroad

Welcoming international exchange and degree students, however, is not the only way to create an international experience for our students. We also strongly encourage our students to spend a semester abroad. Efforts to allow students the opportunity to gain international experience are increasing. We now send over 60 students away each year, compared to six
On 28 January 2003, Bishop’s University held a special Convocation, 150 years to the day since the signing of our Royal Charter by Queen Victoria. Seventy-three students graduated at the Convocation and Her Excellency the Governor General of Canada, Adrienne Clarkson and The Right Reverend Andrew Hutchison, Archbishop of Montreal, were awarded honorary degrees.

Her Excellency the Right Honourable Adrienne Clarkson gave the Convocation address. Speaking to the graduating class, Madame Clarkson claimed, “life is worth living when you realize that with one tiny, almost insignificant, exception, the world is made up of others....The reality of others means not just the reality of other people whom you love and feel an affinity for. It also means a learning to understand those who are not like you and with whom you would not choose to have intimate contact. It is incumbent upon all of us who have been given the privilege and advantage of years of civilized education to try and comprehend that of which we do not approve, that of which we are afraid, that which we would like to change. But it is this comprehension, this movement towards the other, which counts and which helps to create a civil society.”

Madame Clarkson concluded with a poem by distinguished Bishop’s alumnus F.R. Scott ’19, DCL ’70:

The world is my country  
The human race is my race  
The spirit of man is my God  
The future of man is my heaven.

Bishop’s Postage Stamp

On Convocation Day, Canada Post unveiled the special stamp issued in honour of Bishop’s anniversary. The 48¢ stamp can be purchased in all post offices and will be available until 27 January 2004. Be sure to use the stamp for all your mail. (Some postal outlets — those located in a host business such as a pharmacy — may have limited quantities.)
Fire in Lennoxville
39 students left homeless discover Bishop’s spirit of generosity and mutual help

Fire, shock, heartbreak. Then help, gratitude, relief. Around 8 a.m. on Sunday morning, 26 January 2003, 39 Bishop’s students living in apartments above the FamiliPrix pharmacy on Queen Street in Lennoxville were roused out of their beds as fire broke out. Students stood in the snow in their coats and pajamas and watched everything they owned go up in smoke. The building was completely destroyed.

The majority of the students were bused to Bishop’s University around 11 a.m. to contact their parents and determine their short-term accommodation. Students stayed with friends or in University residences on Sunday night. On Monday morning all victims met on campus for breakfast and information was given on academic matters, lost identification, counsellors and health professionals, housing, insurance claims and emergency loans from the Business Office. They received Red Cross vouchers for clothing ($170) and food ($50), meal points from the University ($125), clothing (donations from students and community members). Students’ textbooks and school supplies were replaced free of charge.

As the news spread throughout the Bishop’s, Lennoxville and Sherbrooke communities, help came flooding in. A worker for the Red Cross said that, in over 30 years of working for the organization, she had never seen so much come in so quickly after a disaster. Acts of kindness abounded:

- A family of four lived in the building (the father was the supervisor). Students who were able gave them some of their food and clothing vouchers and gifts were donated for them.

- As a student stood in the parking lot to survey the damage, a woman came up to her to and handed her a pie (she had to borrow a fork to eat it).

- A student was very upset that her cat was trapped inside the building. The next day firemen found it alive, but stuck in the building. Water used to put out the fire had frozen overnight (it was more than -30 C that night), and the cat’s fur was frozen to a wall. Firemen rescued it (leaving some fur behind), warmed it up in the firehall, and the cat was fine. (Firemen claim it is rare that a cat will die in a fire. They usually hide in a small space or duct.)

- A student was very upset that her cat was trapped inside the building. The next day firemen found it alive, but stuck in the building. Katie Hanson, a student from St. Stephen, NB, thought she would be more upset. “But I didn’t lose everything. I probably gained more from everyone’s generosity and support.” As she watched the fire, her friends went to the dollar store in Lennoxville and bought her underwear, socks and gloves. The next morning as everyone met together on campus, Katie couldn’t believe the number of clothes students and community members had donated. “People acted so quickly and generously.”

Laura Deyell from Toronto was in Montreal at a Model UN conference when the fire broke out. She was moved by people in her Model UN class who gave her a TV and a VCR. She appreciated all the free towels, sheets and bedding donated by a C.S. Brooks, a local textile plant in Magog, and the many acts of kindness from friends and strangers. But Laura is disappointed. “I was spending my last semester at Bishop’s with my friends. We were all in the same building, and now the atmosphere is gone. It takes an effort to get together now.”

Bishop’s students who were victims of fire are deeply grateful to alumni and friends of Bishop’s, members of the local community and organizations and companies who responded generously to help them recover from the disaster and continue their studies. “From the moment we hurried out of our apartments, doors were opening ushering us in,” says student Jennifer Waslen. “This is what separates us from the rest. I can’t count the times this school has amazed me with its tradition and community.”
Tony Biancosino from New Jersey and his father, who had come up to watch the Super Bowl, were both sleeping when the fire broke out. “I lost all my clothes, furniture, photos and paintings my friends had done for me.” Sue Turner, former Director of Health Services at Bishop’s who had just retired, and her husband, Gord, invited Tony and five other students to stay in their bed and breakfast in Hatley for a week after the fire. Tony is staying in Mackinnon Residence for the term.

Anita Voskamp from Waterdown, ON and Mireille Pruneau from St. Prospère in the Beauce appreciated the help from the Pentecostal Church in Lennoxville. “We went to church as the building was burning. The church took an offering for us and went shopping with us that afternoon.” Professor Jim Benson took them into his home for the term.” We are in James’ room (Jim’s son). We have a DVD, a computer and internet connection in the bedroom. We never had that before.”

Anita and Mireille are upbeat. “After your stuff is gone, you realize you don’t need it as much as you thought. Besides, you don’t have to worry about storing it. We’ve had so much support from our church and our Bishop’s friends. People get closer when something like this happens. We met people who lived in the building who we didn’t know before. It’s cool.”

Larissa Gibson from Kingston, NS was relieved to have retrieved her photo album of her travels in the past five years from the fire. “It’s burned at the back, but the front is good.” Friends have sectioned off a part between the living room and dining room in their apartment to provide Larissa with a bedroom.

When word went out that a Fire Relief Fund was being established to help the victims, community members, alumni and friends of Bishop’s were quick to respond. Within five days donations surpassed $20,000. In total, over $46,000 was donated. In consultation with the victims, the money was given out based on need.

Janyne Hodder, Principal, said: “In talking about Bishop’s, I often extol the virtues of our community spirit. My belief in this extraordinary phenomenon was confirmed a thousandfold following the fire.”

Bishop’s extends its heartfelt thanks to those who responded quickly and generously to help the victims of the fire. The list below are the names of those who donated money to the Bishop’s University Foundation. Hundreds of others donated clothes, shoes, furniture, bedding, toiletries, pots and pans, etc. Although it is impossible to list the names of everyone who helped our students in their time of trouble, we are deeply grateful for every act of kindness. We heard it said more than once by the students and their parents: “This is why we chose Bishop’s.”

Congratulations

- Second year student, Karen Cooke (Honours Biology), was awarded a prestigious “Women in Science and Engineering” scholarship from the National Research Council of Canada (NRC). She will spend the next several summers working in the research laboratories of NRC scientists.

- Honours Chemistry student, Sanela Martic, was awarded first prize for a presentation of her research results at the 35th Annual Inorganic Chemistry meeting. She was the only undergraduate presenter among 39 graduate and post-doctoral students.

- Bishop’s student Amy Vallis won 2nd prize in the Ottawa Little Theatre National Playwriting Competition for her play, “Little Turn of Sadness.”

(see page 17 for our student achievements in athletics)

On Campus

Business Competition

- Our business students, as the winners of last year’s Network of International Business Schools (NIBS) case competition, hosted this year’s competition from 17-21 March 2003. Eight teams from 6 different countries — Thailand, Finland, Ireland, New Zealand, France, USA, Memorial and Bishop’s — competed in these academic competitions. Bishop’s was eliminated in the semi finals and Memorial University of Newfoundland was the winner in the final round against Helsinki.

Business Co-op Programme

- Students admitted into the three-year Business programme now have to complete two work terms, and the four-year programme requires three work terms. The first group of co-op students, will go out on their first work term in May. Twenty-four students were accepted into co-op. Requirements included a minimum 70% average after one year of study and an interview. Student placements will be in Halifax, Toronto, Eastern Townships, Barbados, Beauce, Boston, Montreal, Slovakia, and Ottawa.

Speakers on Campus

- The Provigo Lecture is given annually at Bishop’s University on a topic related to biology or the environment. This year Dr Mark Ware, Professor of Medicine at McGill and Scientific Director of the Canadian Consortium for the Investigation of Cannabis, spoke on “Marijuana and Medicine: Clearing the Smoke.”

- The 2003 Ogden Glass Speaker was Dr. Richard Firth Green, who formerly taught at Bishop’s and University of Western Ontario and is currently at Ohio State University. He spoke on “Merlin’s Mother: A Prehistory of the Early-Modern Witch.”

McConnell Student Opportunity Fund

- William Ficner, Kure Heinrich and John Horn from the History Student Union were awarded $2,500 to publish their Historical Review.

- Brandy Bursey, a Biology and Neuroscience student, will receive $1,860 to attend the Golden Key International Convention (an academic honour society) in Chicago in August 2003.

- Jorda Watters of Bishop’s Women’s Centre received $3,076 to support “The Vagina Monologues and V-Day Campaign” to raise awareness and money to fight violence against women.

- Leigh Sowerby and Sean Rupka, Biochemistry honours students, were awarded $3,000 to travel to Thailand with the NGO “Cross Cultural Solutions.” They will assist with AIDS education and other medical activities.

- Priya Raju received $2,000 to help finance a trip to observe and assist the Janjari Sankurathri Memorial Foundation in Kakinda, India to learn about the “administration of an effective non-profit medical organization that serves an underdeveloped area.”
Over the next decade, heightened demand for a university education will be fuelled both by a population surge of 18 to 24-year-olds in Canada and by increases in participation rates, triggered by a growing number of university-educated parents who believe in the importance of a university education. Experts predict that university full-time enrolment will increase 20-30% by 2011.

Equally important is the relationship between government funding and graduation rates. Statistics prove that students who live in residence benefit from the support of residence life programmes during the transition to university life and thus persist to graduation at higher rates than those who do not have this opportunity. Given that our current performance contract with the Quebec government has the challenge of an 80% graduation rate by 2007-08 (our current graduation rate is close to 72%), the possibility of increased residence space can be seen as a means to an end.

Residence forecast for September 2003

In September 2003, we will see a huge influx of students into the university system. The influx will be felt most by Ontario universities (a result of the double cohort), but other institutions across the country, including Bishop’s, will experience growth. We anticipate an increase of 100 students from Ontario for our 2003-2004 academic year. This will result in our largest entering class to date. While the double cohort will bring a significant increase in enrolment to universities, this trend is expected to continue, due both to the increased demographics in Canada as well as an anticipated increase in participation rates among this group. Thus we can anticipate sustaining our increased full-time enrolment.

At Bishop’s, concerns were raised about how these students will be accommodated within our current residence structure. In January 2003, following recommendations from our Finance, Environment & Land Use and Building Committees, the Executive Committee of Corporation approved the construction of a new residence this summer.

Configuration

Presently the Bishop’s residence system accommodates 511 students in a combination of single and double rooms. Mackinnon, Norton and Pollack are traditional dorm style accommodation, with both single and double rooms, and house 241 students or 47% of our residence population. Munster, Kuehner and Abbott, accommodate 270 students in single rooms with a semi-private bathroom, representing 53% of our residence population. All residence students are required to purchase a meal plan.

For the 2002-03 academic year, our residences house 411 first year students and 89 returning students for a total of 500 occupants. This represents 26% of the full-time student enrolment. These numbers are low, considering the number of students entering Bishop’s (704 in 2002-2003) and the overall student enrolment (1910 in 2002-2003).

Fifty-eight per cent of the first year class choose to live in residence. Seventeen per cent of students return to live in residence for a second or subsequent year, down from 21% in 1999-2000.

Presently Bishop’s can accommodate 27% of our overall student population of 1900 in residence. For a campus that claims to be a “predominantly residential institution,” this number is low. Many small liberal arts schools across the country can accommodate between 45-50% of their student population. An increase of 165 beds would mean a total of 675 beds on campus, approximately 35% of the overall student population.

The New Residence

The new residence will have 165 beds, arranged in apartments which will each contain four bedrooms, two bathrooms and a shared living-room and kitchen. The ground floor will house common areas, study space, offices, vending and laundry facilities and other amenities. Each of the upper floors will have ten apartments, a Residence Assistant apartment and a common area. The design of the building will permit future expansion if needed.

Summer Conference Operation

Suite style residences will also enhance our summer conference operation. Air-conditioned suites with single rooms and semi-private bathrooms will allow us to target a group of clients that is not interested in our present style of accommodation. Conference guests will enjoy the additional common area space, access to a kitchen, specifically a fridge, and a living room that provides them with an area where they can socialize with other attendees.

Financing

This $7,000,000 project will be financed over 25 years using a bank mortgage. The initial mortgage will be locked-in for seven years. Apartment rates are set at $525 per month over an 8-month lease.

Mark McLaughlin ’84, Vice-Principal Finance & Administration
(mmclaugh@ubishops.ca)
We stand on guard for thee
Rick Barker ’70 works in nuclear, biological and chemical defence

Nuclear, biological and chemical warfare — the words conjure up scenes of wholesale destruction. LCol Rick Barker ’70 is in the business of protecting Canadians from these threats. A formidable task.

In his job at Canadian National Defence Headquarters in Ottawa, Rick oversees the development of defence capabilities against nuclear, biological and chemical (NBC) agents not only in warfare “but any that could be encountered, including those released from industrial or medical facilities due to explosion, terrorist attacks or acts of war.”

The job is largely defined by Canada and her allies — the US, the UK, NATO — which draw up standards, guidelines, and goals. Rick’s directorate provides support to Canada’s military decision makers with data to help plan, direct and control NBC defensive activities.

“Our directorate determines Canada’s deficiencies and how to correct them, and identifies future requirements. Sometimes we buy things off the shelf (a Canadian company is a world leader in biological agent detector equipment). When we require research and development for a new capability, the time to procure new equipment rises dramatically.”

Rick’s area provides personal protection equipment for our troops — body suits, gloves and overboots made from butyl rubber — destined to guard against known toxic agents. “Canada has a gas mask made from butyl rubber that is well above the acceptable level required by NATO.” If troops need to stay in a contaminated area, equipment for “collective protection” is needed. Soldiers stay in a special tent that is overpressurized so that air gets out but only filtered air gets in.

Decontamination is another important area in NBC defence. “Soldiers carry pouches of decontamination liquid which they can apply, and it works well.” Troops are also deployed to decontaminate large areas and equipment. “We are looking at how to safely decontaminate cockpits and sensitive equipment. The material we have now works well but can damage the equipment.”

Detection and identification of what agents have been used is critical to Canada’s defence. “Our troops use a variety of sensors to detect whether an agent has been used. More sophisticated sensors will determine what that agent is, whether biological, chemical or nuclear. Samples can be taken for further investigation in a laboratory. If it is biological, for instance, we may start developing an antidote. On the international scene, the lab may provide legal proof that someone has used an illegal agent against a country’s troops.”

Is Canada’s defence system inadequate? “We can never have 100% protection against anything. But I believe in my area — nuclear, biological and chemical — our military personnel are well-protected. We provide full capability in all areas of NBC defence: hazard prediction, warning and reporting, sensing and decontamination systems, and effective personal protective clothing.”

After September 11, the Federal Government directed the formation of a new unit, the Joint NBC Defence Company with its base at CFB Trenton whose transport aircraft afford an ability to respond quickly to NBC crises across Canada. The unit can move across Canada on short notice to respond to military or domestic incidents (for example, an industrial accident). Firefighters and police forces provide the initial responses to these emergencies, but the new unit can provide great support in NBC emergencies. Rick’s directorate is the technical authority behind the unit.

To do his job effectively, Rick must be aware of what is happening around the world. He sits on international committees in NATO and the member countries share information and discuss their research. “I’ve been in the Air Force for 29 years, and this is the busiest job I’ve had. As the world changes, we have to change with it and the challenge is keeping pace with new developments.”

Spring 2003 Bishop’s University News • 11
Adventure in Nicaragua

Jamie McDonald ’02 (Honours Sociology, double minor Criminology and Psychology) wrote to the Alumni Office about her adventure in Nicaragua.

I am on an internship in Managua, Nicaragua with the Christian Children’s Fund of Canada and CAPRI (Centro de Apoyo a Programas y Proyectos), as part of CIDA’s Youth Employment Strategy. I help members of a marginal community form a health commission and organize various disease prevention activities such as clean-up days, an anti-parasitic campaign, residual water treatment, health workshops, etc. On weekends and holidays, I travel throughout Nicaragua. My adventure happened during one of these weekends.

I and two friends visited a magnificent beach on the Pacific coast of Nicaragua. The old school bus that took us there passed through three streams that crossed the road, but the trip was uneventful. At the end of the day, instead of waiting for the last bus, we hitched a ride on a pick-up truck. When we reached the first stream, it had swollen up with water from the nearby mountains and, in only a few hours, had become a small river. We were warned not to attempt to cross the stream, but the truck driver decided to try. I thought that, with eight people in the truck plus the weight of the truck itself, we should make it.

We hadn’t gone three meters when the truck started to float! Then we realized we were heading towards a barbed wire fence. As we got closer, I told myself the water would be shallower there and we would be able to drive out swiftly. But no, we continued to be pushed by the current until the fence started ripping my clothes and skin.

I jumped in the stinky, dirty, mud-and garbage-filled water and tried to pass under the wire without getting stuck under the truck. I came back to the surface and held on to the truck as we drifted further away. Finally, the truck stopped in the mud in a shallower part of the river. As we tried to walk to the side of the river to tie a rope to a tree, the current was so strong we kept falling. A neighbour jumped in and helped us.

The river continued to swell, and the current became stronger. As we watched the pick-up truck submerge under with water, we were stung by vociferous mosquitoes and red ants. Finally, we made our way back to the main road and three hours later we caught the bus we had not taken.

I came out of the incident with a deep cut on my left thigh and cuts on my hip and my arm — but alive, and with a great story to tell!

(Jamie can be reached at planetjamie@wildmail.com)

Great Contacts

In two years, 33-year-old Roger Hardy ‘93 has grown his online contact lens company to revenues of $10 million.

“Our model is so convenient for people,” said Roger. “They don’t want to shop so they go online and get their replacement contacts sent to them.” The business model has definitely caught on.

Roger’s company, Coastal Medical Products Inc., has been growing an average of almost 20 per cent per month for 24 months, with $28 million in revenues expected next year. The company processes about 700 orders for replacement contact lenses per day.

Roger, who runs the company with his sister, Michaela, said Coastal Medical plans to branch off into new products and services in the coming year to become a “full health and wellness” centre, adding new products to cross-sell to its existing contact lens customers.

Roger is an entrepreneur at heart. He put himself through university running companies selling T-shirts and sports gear to fellow students.

Before getting into the contact lens business, Roger worked in transportation logistics, as a national account manager for Loomis Courier Service. After that, he worked in the B.C. sales office of a large U.S.-based contact lens manufacturer.

In 1999, Roger started online contact lens retailer Clearly Contacts and grew the company to $1 million in sales in nine months. He sold the company to a competitor based in San Francisco that eventually went out of business.

The company was resurrected by Roger and his sister in 2000. A major growth spurt occurred when the company recently signed a supply agreement with a Florida-based Health Management Organization, or HMO, serving two million customers.

Smooth Sailing

“It’s been a fantastic tour,” says Kai Bjorn ’96 who has spent the last two years training and competing for the America’s Cup trophy in sailing. Kai was a member of the famous Swiss Alinghi team that defeated the New Zealand defenders on 2 March 2003 to become the first European team to win the cup.

At 152 years, the America’s Cup is the oldest sporting trophy in the world. “The race is the third largest sporting event in the world, second to World Cup Soccer and the summer Olympics,” claims Kai. As a grinder on the team, Kai’s contribution required great strength and cardiovascular endurance, a challenge Kai, 6'5", 235 lb., worked hard to meet. “We push the pedals and wingets that pull the sails in and out. There are four grinders on the team, but we sometimes have eight people participating as grinders. The loads we move are measured in tons.” He participated in half the races for the cup. “Because of the exertion required, each race had a fresh team of grinders.”

Kai was on the team for the final race. By that time there wasn’t much doubt that the Alinghi team would win. “It was a best of nine series, and up to that point we were four nothing. The victory was fantastic.”

Being on the team was only one part of why Kai is so elated about his two year tour. During that time, he married Seychelle Harding in Fiji and they have a daughter, Ella, who was born eight months ago in New Zealand.

This recent triumph isn’t Kai’s first win. He finished fifth in open star sailing at the 2000 Sidney Olympics and won the 1999 and 2000 Barcardi Cups and placed second in the world championships in both years. Born and raised in Quebec, he grew up sailing on Lac St. Louis. The St. Lawrence seaway was on my doorstep.”

Kai plans to get involved in sailing in Canada now. He works at PS 2000 (Performance Sailcraft), a company that builds sailboats. “I want to promote sailing and let other people know there are avenues to make a career in the sport of sailing.”

Branch Briefs

Check out our website for upcoming events in your area: www.ubishops.ca/alumni/events.htm

Quebec City

In January 2003, a small group of Bishop’s alumni, led by Branch President Jill Robinson ’87, met for lunch to discuss possible ideas and events that might bring alumni living in Quebec City together.

On March 27 a first step was taken. A 5 à 7 reception for alumni and friends was held at La Picola’s, a private and quaint restaurant and bar located in downtown Quebec City. Twenty-six alumni and friends in total attended and together had a great time. Among the free hot and cold buffet, a few ales and even the odd door prize, new acquaintances were made.

This was a great start to a branch that will see many more regular events in the near future. Please be sure to send the Alumni and Development Office your e-mail address so we can invite you to the next event. The photo shown was taken later in the evening after many alumni had left.
Montreal

Saint Pat's Parade: 16 March 2003

Again this year, the Montreal Branch entered a float in the Saint Patrick’s Day Parade. The efforts of those involved made this a very successful event. A considerable amount of time went into building and decorating the float, and it looked better than ever. With the energy of those on board, we were popular among the 600,000 spectators. Special thanks to Dan Bohinc ’94 and Rob Allatt ’93, organizers of the event, and volunteers Mike Allatt, Yolaine Dupont ’91 and all those who arrived early to help decorate. Thanks also to Irene Bohinc and Coachman Transport driver Bob Biebl and his family and the members of the “Mountain Dew” band who played on board.

Theatre Night: 20 March 2003

Twenty alumni and friends attended the premiere of Proof. This award-winning play did not disappoint expectations. The evening, which included a pre-play dinner, received rave reviews. Specials thanks to Sterling Mawhinney ’87 for his efforts in organizing this event.

Hugh Scott Speaker/Networking Luncheon: 1 April

Forty-seven alumni and friends attended this lunch at the Saint James’s Club in Montreal. Special thanks to former Principal Hugh Scott DCL’99, now Executive Director of the McGill University Health Centre, for speaking to our group. He offered an analysis of several key issues in the field of health care — a big business in Canada.

Ottawa

Breakfast/Networking Speaker: 19 February 2003

Special thanks to Bishop’s Business professor Dr. James Bowey who spoke to alumni at The Rideau Club at our first speaker series of 2003. The 40 alumni who attended thoroughly enjoyed Professor’s Bowey’s topic “Developing Social Capital.”

Breakfast/Networking Speaker: 30 April 2003

Our speaker series continues April 30 with breakfast again at The Rideau Club. Bishop’s Head Basketball Coach Eddie Pomykala guarantees to “knock our socks off” with his high energy speech, which will address dealing with adversity and achieving success.

Coming this fall (September)

Don’t miss BOB’s 2nd Annual Golf Tournament. BOB (Bishop’s Ottawa Branch) is working hard to bring to you another great afternoon of golf and camaraderie. Stay tuned to our web site (www.ubishops.ca/alumni) “Upcoming Events” page for details.
Toronto

Jeff Cannon Memorial Golf Tournament
Friday, 30 May 2003

Place: Richmond Hill Golf Course
8755 Bathurst Street, Richmond Hill
Bathurst/Hwy 7 www.rhgolf.com

Time: 1:00 p.m. shotgun start

Format: Maximum 140 golfers Vegas (best ball).
Roast beef dinner & silent auction following golf

Cost: $135 includes golf, cart, range (with pro), balls,
lunch, prime rib dinner, participation gifts

Registration:
Please book with
Matt McBrine (819)822-9600 ext 2266; fax: (819) 822-9653, mmcbrine@ubishops.ca OR register online at
www.ubishops.ca/alumni/cannon/reg_frm.htm

For more information, please contact:
Dave McBride: dmcbride@ubishops.ca
Matt McBrine: mmcbrine@ubishops.ca
Pat Sheils: sheilsp@look.ca

E.T.

Winter Homecoming Alumni Hockey Tournament: 15 February 2003

Although few in numbers, the 2003 grad team captured this year’s title. Shown above, the grad team won in spectacular fashion, defeating last year’s winners “Fast Foreplay” in a penalty shot contest. Over 50 alumni and five teams in total participated.

Christmas Port Tasting: 30 November 2002.

Port, nuts, cheese and chocolate were the themes of this past Christmas event held at Uplands Museum in Lennoxville. It didn’t take long for this group to be merry. Soon after sampling a variety of selected ports, the carols and fun began. Special thanks to Graham Moodie ’69 and Grant Simeon ’85 for their efforts in organizing this event. Thanks also to pianist Mrs. Janis Graham, Stan Groves ’81 and the Golden Lion Pub who supplied a stock of their new “Black Fly” stout, and Francois Trashy, Sommelier, for his expertise in port tasting.

Toronto Spring Business Breakfast

On Wednesday, 26 March 2003, 60 Bishop’s alumni and friends met for breakfast at the Fitness Institute for a panel discussion on “Investing in unsettled markets: innovation, diversification and risk management.” The morning was enlightening — no doubt we are all a little richer for having listened to their presentations.

Special thanks to our panel pictured in photo above with Chancellor Alex Paterson and Principal Janyne Hodder: (l-r): Tim Griffin ’71(Chairman & CEO, Connor, Clark & Lunn Private Capital Ltd.), David Burrows ’87 (President, First Associates Investments) and Eric Innes ’71(Chairman, YMG Capital Management).
Bishop’s has a history of supporting student-athletes. In the past, the University’s generous financing of sports programmes was sufficient to maintain a competitive edge. However, the changing landscape of university sports funding in Quebec has greatly changed our ability to recruit top student-athletes and to maintain our competitiveness.

Private funding of university athletic programmes raises the stakes dramatically for all institutions — including Bishop’s — who rely on traditional funding models. We must find additional resources to remain competitive and continue to attract excellent student-athletes to Bishop’s. Additional funds are needed to:

- provide awards and bursaries to student-athletes
- make capital improvements to our facilities
- improve equipment for athletes
- provide additional coaching
- increase recruiting budgets
- supplement travel costs.

The **Gaiter Club**

Former Gaiters and friends of the Gaiters are invited to join a new Bishop’s team: The **Gaiter Club**. Its purpose — to promote excellence in Bishop’s Athletics. Membership dues will support our athletes and coaches beyond the annual budget provided by the University to help Bishop’s attract top student-athletes. Members can choose a sport to support or direct their dues to Gaiter Athletic Awards or the highest priorities of the Department of Athletics. The Athletic Advisory Board will work with the Department of Athletics to establish priorities each year.

**Corporate Partners**

Concurrent with the introduction of The **Gaiter Club**, the Department of Athletics will launch a campaign to acquire corporate partners in the Eastern Townships. Partners will be invited to make three year commitments, in amounts ranging from $1,500-$10,000 per year, to take effect in July 2003. The aim is to infuse at least $50,000 per year for three years into enhancing athletic programmes and facilities. Both general and sport-specific partners will be sought.

“Our current fund raising efforts — through The **Gaiter Club** and the corporate sponsors — are essential if Bishop’s is to remain competitive in an ever-changing athletic environment,” says Tony Addona, Director of Athletics.
The Department of Athletics enjoyed a successful season in 2002-03 as seven Gaiter teams advanced to the play-offs, three student-athletes were named to All-Canadian teams and 19 were selected to league all-star teams.

In the fall, the football team recorded two wins during the regular season before losing to the league champion McGill Redmen in the first round of the playoffs. Wide receiver Gilles Colon, defensive end Joe Fortin and defensive back Terry Veneau were all selected to the QIFC all-star team.

The women's soccer team started the season strongly with wins over Sherbrooke, UQAM and UQTR and a tie versus Concordia, but late season injuries prevented the Gaiters from securing a playoff spot in the competitive Quebec university circuit. Jessica Romani, Marie-Ève Bellerose and Shannon Marshall were all named to the conference all-star team.

The men's rugby team once again was a competitive force on the Quebec scene, but they were eliminated by the Concordia Stingers in a hard-fought semi-final game. Chris Aylwin, Andre Sullivan and James Clifford received all-star selections.

The women's rugby team showed signs of improvement under rookie head coach Jim Scheib '94 and captured the fourth and final playoff spot. Dallas Neville capped a brilliant university career by being named to the CIS All-Canadian team and was joined by Jessica Little on the league all-star team.

The lacrosse team had a banner year as they advanced to the finals of the Ontario University Field Lacrosse Association championships where they dropped a heart-breaking sudden-death 9-8 triple overtime loss to the host Brock Badgers. Ryan Scott was named the league’s Most Valuable Player, Drew Pollack was the league’s Rookie MVP and they were joined by Austin Dalgarno, Stewart McFarlane and Steve Beketa on the all-star team. Coach Damien Roy '93 was named league Coach of the Year for his efforts in developing the lacrosse programme at Bishop’s.

The Bishop’s golf team, under the direction of Karl Hunting '01, competed in the Quebec University Golf Tournament and was led by team MVP Erik Lagarde.

The Polar Bears women's hockey team played an exhibition schedule against teams from across eastern Canada and northeastern United States. The team, featuring rookies on the roster, was led by winger Kim Purcell, goaltender Danielle Breau and newcomer Cindel Chartrand.

The men’s basketball team posted wins over UPEI, Concordia and McGill and finished third in the QUBL. Phil Miguel completed his Bishop's career in outstanding fashion as he was named the league’s MVP, Defensive Player of the Year and was a CIS honourable mention All-Canadian. Ricardo Telamon, one of seven rookies on the squad, was selected as Quebec league’s Rookie of the Year.

The women’s basketball team had a strong season as they captured two tournament championships, finished second in the league and lost to the nationally ranked Laval Rouge et Or in the conference final. Senior Catherine Charbonneau was a league all-star and CIS honourable All-Canadian while Anouk Boulanger was picked as the league Rookie of the Year, a CIS Rookie All-Canadian and first team conference all-star.

Michele Beaulieu led a spirited Bishop’s ski team to a third place finish in the women’s division and a fourth place overall finish. Beaulieu had a phenomenal year as she placed second in the circuit’s overall standings. Other female skiers with strong showings included Mélanie Lessard, Valérie Dessaulles, Martha Goodfellow, Sophie Cross and Morgan Jenkins.

The men’s ski team placed fifth overall and were led by James Morrison who finished tenth in the final standings. Bishop’s also received strong performances from Andrew Hunt, Reid McGregor, Mark Courneya and Todd Larsens.

Mike Hickey
Sports Information
(mhickey@ubishops.ca)
Gifts of Art

Bishop’s Art Collection Committee is pleased to announce its new acquisitions. Through the generous donations of Dr. Wilfred and Mrs. Phyllis (Bishop) ’40 McCutcheon, we received five new pieces. All the new works are by Canadian artists and they include Robert Bateman, David Blackwood, A.J. Casson (a serigraph recreated by Paul Gauthier), Jennifer Dickson, and Lawren P. Harris. All five are on display in the circulation desk area of Bishop’s library.

The Art Committee gratefully accepted a large collage, “Dark House I” from Montrealers Mr. and Mrs. Irwin Browns. The Browns have multiple connections to the University. They have fond memories of summer theatre here, Mrs. Browns is a school friend of Principal Janyne Hodder, and they have cordial professional relations with our Art Gallery Director, Ms. Gaetane Verna. “Dark House I,” by Canadian artist John Schweitzer, will be on display in the Centennial Theatre foyer.

The Bishop’s community is very fortunate to have such generous benefactors.

Willa Montague ’97, Slide Curator (wmontagu@ubishops.ca)

Knowlton Centre

Continuing Education has always been an important part of Bishop’s University for students who cannot pursue their education on a full-time basis. However, many students living outside the Lennoxville area had to travel significant distances to attend their evening courses.

The Knowlton satellite campus was created to respond to students who said they wished to take courses in their area. The first courses in Knowlton were offered in community halls in 1995 and three years later, in June 1998, the Knowlton Centre officially opened its doors in its own location in the heart of Knowlton. A multi-functional space, the centre offers studio and classroom space, which double as an art gallery to show students’ artwork and hold special events.

Over 30 courses were offered in 2001-02, from Fine Arts to Languages, History, Religion and Psychology. Many students are enrolled in our Certificate in Studio Arts or a B.A, Major Fine Arts programme. Others audit courses to satisfy their desire to learn without having the stress of exams.

Non-credit workshops on photography, creative writing, and meditation complement the regular offerings. Knowlton Centre also invites lecturers and speakers in art throughout the year.

Most students at the Knowlton Centre are part-time workers or recent retirees. The majority are from the Brome-Missisquoi region, although some come from as far as St-Bruno, St-Jean and Magog.

Student artwork is exhibited at the Knowlton Centre three times a year at the end of every semester. Students also participate in many local events related to the arts such as “Les journées de la culture,” “The Duck Festival,” “La fête du chocolat,” and “Townshippers’ Day.” Student participation in these events increases Bishop’s Knowlton Centre’s visibility in the community so that more people are discovering this institution of higher learning.

Over the last seven years, more than 25 students have graduated from the two arts programmes offered at the Knowlton Centre. We hope to achieve similar success in St. Lambert where Fine Arts courses have been offered at two locations since 1998 and where seven students have graduated already. Registration at St. Lambert has increased every year.

Look for the special events at Bishop’s Knowlton Centre on Bishop’s web site (www.ubishops.ca), under “Events.” Taking courses at Knowlton will awaken your creative side.

Damien Roy ’93, Coordinator of Continuing Education (droy@ubishops.ca)
Facility Profile

“Teaching computer science is extremely satisfying when you hear a student say, ‘YES, I’ve got it!’ It’s a celebration,” says Dimitri Vouliouris.

“Often that moment is sudden. Students absorb, absorb, absorb and suddenly one day all the information rearranges itself into something. Sometimes this ‘aha’ comes years after they graduate. I’ve have former students write to me and say, ‘I finally understand the BNF notation. Isn’t it wonderful.’”

Good computer scientists, Professor Vouliouris claims, have a facility with both right and left brain functions. They have to be both creative and technical. “Programming is an art. I like to compare it to playing the violin, in which the violin itself is so technical that for every note you have to give it a very precise sequence of instructions. Programming has another feature similar to playing music. Your mistakes are in front of you immediately. The computer sends you the message: error.”

Professor Vouliouris uses many examples from daily life to explain his subject to students, but his musical ones are special. “I’ve always wanted to play the cello and am taking courses. It’s a celebration,” says Professor Vouliouris. “Often that moment is sudden. Students absorb, absorb and suddenly one day all the information rearranges itself into something. Sometimes this ‘aha’ comes years after they graduate. I’ve have former students write to me and say, ‘I finally understand the BNF notation. Isn’t it wonderful.’”

Computer science students get a good deal of encouragement at Bishop’s. “Our department is very nourishing and doesn’t give up easily on a student. Students who do poorly in the first or second semester sometimes submit brilliant work by the end of the programme. Because we have small classes, we know what each student is doing. We can tell whether students do not have the ability or if there is some other factor preventing them from succeeding. Students also choose their own projects in upper level courses, so they can work to their own interests and strengths.”

In one of Professor Vouliouris’ courses, for example, students cooperate to write a complex piece of software in which they choose which part they write. They also get experience in marketing their projects. “Students make a formal technical presentation of their piece to other groups in the class to persuade them use it in their programmes. They may offer a month’s service on the product, or guarantee to do any modifications the professor may ask. Once the group ‘buys’ it, it has to use it. The class ends up with one big project at the end of the course. After graduation, the project is often a feather in their cap when they are looking for a job.”

Professor Vouliouris’ field is languages and software engineering. “Programmes today are very complex, and you need to build upon successive layers of abstraction. For example, if you want to tell someone how to take the bus to Sherbrooke, you tell them in high level instructions. You don’t tell them to move your little finger right, open your purse, take out the money. Modern computer languages allow you to abstract these processes in larger chunks so you can more easily work up to highly complex tasks that may, for example, run the space shuttle or land a Boeing 747. These programmes use techniques and have characteristics of architecture. This is what patterns do in software engineering, and that’s part of my research. Patterns are a uniform way of solving a problem. That’s what you want — to use the computer to solve problems.”

Professor Vouliouris claims he enjoys his field because he likes making things. “They might not be metal or wood, but you are creating software artifacts, which do things for you. I like both the making and the teaching to make.”

Chair in Algebra

Bishop’s University and l’Université de Sherbrooke recently created the Maurice Auslander Research Chair in Representation Theory of Algebras for highly qualified candidates with potential to become international leaders in representation theory of algebras.

Dr. François Huard of Bishop’s Department of Mathematics and Dr. Richard Brewster of the Department of Computer Science are members of the Bishop’s-Sherbrooke group in representation theory of algebra that originated the joint initiative. The group consists of three faculty members from l’Université de Sherbrooke (Dr. Ibrahim Assem, Dr. Shiping Liu and Dr. Pierre-Yves Leduc), two postdoctoral fellows and ten graduate students, making it the most active one in this field in North America.

“The Chair will give a huge impetus to our group, said Dr. Huard. “With six active researchers, we will be established worldwide as one of the main centres for representation theory of algebras. The cooperation between the two universities’ algebraists is extremely productive, and we were able to invite two postdoctoral researchers in 2002-03.”
Births

Blaney-Boucher: To Carol-Ann ’01 and Mathieu a son, Francis, on 12 October 2002.

Bardati: To Jennifer and Darren ’94 a daughter, Journey Faith, on 1 December 2002. A sister for Curtis, 10, Derek, 8, and Jaeden , 16 months.

Cassivi-Gonsalves: To Sandra ’95 and Bruce a son, Sonny Anthony, on 19 November 2002.

Cook-Treacy: To Jocelynn ’92 and Brian ’92 a daughter, Kensie Leigh, on 15 June 2002.

Côté-Théberge: To Stephanie ’95 and David a son, Benjamin Charles, on 18 April 2002.

Dickieson: To Erin (née Blain) ’97 and Andrew ’95 a daughter, Clara Grace, on 3 November 2002.

Dobrowolski: To Debbie (née Raham)’94 and Mark a son, Benjamin Nicklas, on 6 July 2002 in Toronto.

Dorey: To Christine and Daniel ’82 a daughter, Claudia, on 15 February 2003. A sister for Michelle and Erika.

Easterbrook-Deasy: To Lorra ’93 and Robert a daughter, Annie Brendan, on 11 June 2002. A sister for Sophie.

Garcau: To Carolyne and Alain ’97 a daughter, Danika, on 26 December 2002.

Graham-Blanchette: To Stephanie ’00 and Joshua ’99 a son, Connor Grant, on 27 October 2002.

Harrison-Brown-Graham: To Julie ’93 and Damien a daughter, Sophie, on 19 August 2002 in Ottawa.

Ketcheson: To Teena and Dale ’97 a daughter, Emily Marie, on 11 December 2002.

Knowlton-Lewis: To Nicole and Shaun ’92 a daughter, Michelle Robin, on 28 November 2002 in Toronto.

Lemay-Lampron: To Marie-France ’90 and Richard a daughter, Catherine Noel, on 15 May 2002 in Longueuil.

Levasseur-Côté: To Caroline ’97 and Mike a son, Alexandre, on 11 September 2002.

Mansell-Lamport: To Kim ’95 and Jerry a daughter, Mya Grace, on 20 June 2002 in London, Ontario.

McNiven: To Christina and Shawn ’95 a son, Hamish Shawn David, on 23 February 2003. (smcniven@hotmail.com).

Moore: To Sue (Stuart ’88) and Jim a son, Matthew William, on 4 December 2002. A brother for Lindsay and Chelsea.

Meesen-Bradley: To Sue ’91 and Garry a son, Nicholas Jack, on 19 March 2003. A brother for Annika.

Morton-Sim: To Wendy ’82 and David ’83 a daughter, Isabelle Frances, on 20 November 2002 in Ottawa. A sister for Andrew. 

Phaneuf-Pelletier: To Isabelle ’00 and Martin ’98 a son, Alexandre, on 17 April 2002 in Montreal.

Tracy-Carruthers: To Joanne ’92 and Bryan a son, Tyler George, on 2 February 2002. A brother for Lyanne, 5.

Webster-Blunden: To Erika ’94 and Paul a son, Noah, on 27 June 2002.
**Marriages**

**Blaney-Letellier:** Sandra '01 and Ghislain on 12 July 2002 in St-Narcisse, QC.

**Campbell-Tymchuk:** Sandra '00 and Michael '99 on 31 August 2002 in Gananoque, Ontario.

**Clements-Chabot:** Nicole '94 and Todd on 3 August 2002 at Glen Mountain in Knowlton, Quebec.

**D’Urso-Angeles:** Arianna '99 and Miko '98 in Vienna, Virginia on 9 November 2002.

**Kellsey-Dahle:** Becky and Chris '99 on 31 August 2002 in Waterloo, Ontario. Bishop’s alumni in attendance were Jeremy Roche ’99, Jodi Green ’01, Natalie Ryan '01, Becky Graham '99, Tom Johannsen, Matt Smith '00, Karen Armour '97, Lisa Pearson '97, Kevin Martin '00, Rachelle O’Loughlin '00, and Anne-Marie Gascon '01.

Deaths

James Edward Cullen Beatty QC ’37 on 18 January 2003 in Toronto. He was Deputy Official Guardian of Ontario and in 1977 was awarded the Elizabeth II Silver Jubilee Medal. (Major retired.) He served during World War II in Canada, England and Holland, and Holland honoured him with an appointment as a Knight of the Order of Orange Nassau with Swords. He was a life member of the Advocates Society, the Law Society of Upper Canada and the Royal Canadian Military Institute. He was one of the founding members of the Self-Help Resource Centre.

Charles Curphey ’53 on 8 October 2002.

Dorothy Dutton ’20 on 8 February 2003 in Richmond, Quebec. Godmother of Muriel French Fitzsimmons ’64. Dorothy earned her degree from Bishop’s at a time when few women went on to higher learning. She worked as a school teacher, business woman and manager of Indian Head, a large tourist resort in New Hampshire, for many years. When she retired she moved back to Lennoxville and took an administrative job at Bishop’s College School where she worked for many more years. She was a devoted worker for St. George’s Church in Lennoxville. She wrote and edited the parish newsletter and was given a Life Membership by the Anglican Church Women. She was passionately interested in the history of the Eastern Townships and the New England States. She wrote historical novels, two of which, Hunters Landing and Jonathan’s Long Furrow, were published. She wrote continuously until she was 97. In 1980 Bishop’s named her Alumna of the Year and in 1994 she received Bishop’s Sesquicentennial Service Award. In 2002 Dorothy was made an Honorary Member of Bishop’s Golden Key Academic Honour Society.

Ramon Hnatyshyn DCL ’93, former Governor General of Canada, on 18 December 2002.

Audrey Stuart Iton, friend of Bishop’s University, on 13 November 2002.

Ernestine Roy Harrison ’41 on 28 July 2002 in Vancouver. Daughter of the late Reverend Canon Ernest Roy (BA 1899, LST 1901, MA 1904) and Mabel Mitchell Roy ’15. Sister of Andrew Roy ’44. In the early

Marriages (cont’d)

McKay-Gould: Kristen ’96 and Jonathan ’96 on 10 August 2002.

Schell-Geier: Jaime ’99 and Michael on 22 January 2003. On 24 January 2003, surrounded by family and close friends, Mike passed away at the West Island Palliative Care Residence in Montreal. “Mike would be proud to see the strength and courage, Jamie, you’ve shown during this difficult time. We love you, Jaime.”

Wooldridge-Musgrave: Erin and Stuart ’94 on 7 December 2002 in Charlottetown (stumusgrave54@hotmail.com).

Engagements

Blaney-Boucher: Carol-Ann ’01 and Mathieu. Wedding in July 2003 in St-Narcisse, QC.

Savoie-Hurst: Lylene ’98 and Ryan ’96 on their return from a four-month scuba diving trip through southeast Asia. Wedding in August at Ryan’s country home in the Laurentians.

If you wish to send a donation to Bishop’s University in memory or honour of a graduate, friend or relative, your gift will help fund the Alumni/Alumnae Scholarships. Please send your gift to:

Pam McPhail, Director of Development, Alumni and Development Office, Bishop’s University, Lennoxville QC J1M 1Z7
e-mail: pmcphail@ubishops.ca, tel: (819) 822-9660, fax: (819) 822-9653
(Please make cheques payable to the Bishop’s University Foundation.)

Deaths (cont’d)

70s, after raising her family, she worked at the University of British Columbia as Executive Assistant to Canadian writer Dr. George Woodcock in publishing the journal, Canadian Literature. She had tremendous compassion for all creatures, which led to her work with the SPCA. She formed and spearheaded “Canadians for the Abolition of the Seal Hunt,” and, as part of a delegation, she requested a ban on the importation of seal pelts and associated products before the committees of the British House of Commons and the European Common Market. The ban was enacted shortly after. In the 80s Ernestine turned her attention to the abuses and cruelties inflicted on farm animals raised for human consumption. She organized “Canadians for the Ethical Treatment of Food Animals” to bring the causes to the attention of the many segments of his career: as a businessman, a soldier, an academic, a civil servant and a consultant to the federal government.

John Gordonsmith ’71 at home in Horseshoe Valley, Orillia on 20 October 2002 after a courageous battle with cancer. Brother of Lynda and husband Al ’72 Bell. Staff Sergeant with the Ontario Provincial Police (OPP), Member of the OPP from 1973. While at Bishop’s, Bill was a member of the varsity basketball team. After graduation, he worked with the Hawkesbury, Ontario Detachment of the OPP until 1988 when he moved to Headquarters in Toronto. He transferred to Orillia when the OPP Headquarters were relocated and was promoted to Staff Sergeant, Manager of Records and Graphic Services. He was a member of the OPP Running Team and participated in many police runs throughout the province. One of Bill’s last outings was to the alumni reception in Kingston. He was elected to Pratt and Whitney’s Board of Directors and retired in 1984 as Senior Vice-President after a successful career populating the world with Canadian gas turbine engines. He travelled the globe while working with all Canadian aircraft and engine types, including the Avro Arrow. He wrote Power, the Pratt and Whitney Canada Story, a history of Canadian aviation. He was an avid sailor, train collector, and spent many happy days on his tractor and wielding his chainsaw. His obituary requested donations to St. Mark’s Chapel Fund at Bishop’s University.

Miles (Mike) Wisenthal ’32 on 1 February 2003 in Ottawa. Husband of Dorothy Rosenblom ’32 and father of Jonathan ’61 and David ’69. He was highly respected in the many segments of his career: as a businessman, a soldier, an academic, a civil servant and a consultant to the federal government.

Spring 2003 Bishop’s University News • 23
Through the Years

Queen’s Golden Jubilee Medal

Several members of Bishop’s community were honoured at a ceremony in Ayer’s Cliff, presided over by Compton-Stanstead MP David Price, where they received the Queen’s Golden Jubilee Medal: Nancy Beatlie ’99, Jake Eberts DCL ‘99, Dr. William Klinck DCL ‘00, Dr. Jim Ross DCL ’94, Lt. Col. Warren Sanderson ’75, Phyllis Skeats (retired Library staff member).

1948
Rob Gurr is still rolling along, quite busy at home with children and grandchildren in Ottawa and Calgary, still skiing and canoeing when possible. He would like to find former classmates, including Tony Lee (jr.gurr@sympatico.ca).

1952
Ronald Santoni retired last year from Denison University. In October 2002, Denison held a philosophy conference, “Philosophy, Freedom, and Action” in honour of Ron’s 40-year philosophy career. He is now Professor and Marie Theresa Barney Chair Emeritus at Denison University. His book, Sartre on Violence, was recently published by Penn State University Press.

1953
Ralph Cooke has recently been treating Inuit and Innu patients in Happy Valley, Goose Bay. On 29 January 2003, he was awarded the Queen’s Golden Jubilee Medal for his work with the Inuit of Northern Quebec and his volunteer work in Uganda.

1956
Robert Calderwood can be reached at roblor@islandnet.com and website www.booksbycalderwood.com.

Pauline Reed Barrett is semi-retired from her business as Marriage and Family Therapist in Vancouver. She has had 2 grandchildren in the last 3 years (barrettbp@yahoo.ca).

1959
David Fearon, who has moved to Nanaimo on Vancouver Island, recently returned home from a three-month visit to New Zealand.

1961
Bruce Stavert received the Queen’s Golden Jubilee Medal, presented at The Citadel in Quebec by the Lt. Gov. Lise Thibault, in December 2002 (bishop@quebec.anglican.ca).

1963
Kay Delaney Beausoleil recently retired from the Law faculty at Laval University and is planning to learn to knit.

1965
The Hon. Iona Campagnolo, Lieutenant Governor of British Columbia, presented the Canadian Peacekeeping Service Medal to Captain the Reverend E. Michael Jackson at a special ceremony in October 2002 at the Canadian Consulate General in Seattle. Michael served with 2RHC and saw service in Korea, Gaza, Lebanon, Cyprus and the Congo. He was also Canada’s chief press officer for H. M. the Queen Mother’s visit to Canada in 1962 and was awarded the Order of the Member of the British Empire just prior to resigning his commission to attend Bishop’s. He now lives in Seattle with his wife aboard their classic wooden boat on Lake Union and is assisting priest at St. Mark’s Cathedral.

The Reverend Joyce Mellor is the incumbent of St. Mary’s Anglican Church, Ponoka, Alberta in the Diocese of Edmonton.

1967
Bill Fellows, after more than 31 years, retired from PricewaterhouseCoopers. He joined in 1971 after completing his MBA at McMaster University and was a Partner from 1981 until his retirement in late 2002. He has now set up his own management consulting company specializing in information technology planning and management services (wfellows@attcanada.ca).

Anne Taylor is Manager, Educational NGO for Media Awareness Network in Ottawa (ataylor@media-awareness.ca).

1969
Steven Chow is Managing Director of LGT bank in Liechtenstein in Hong Kong. He serves on the Hospital Governing Committees of Kowloon Hospital, Hong Kong Eye Hospital and Queen Elizabeth Hospital. He is still a member of the Chinese Peoples’ Political Consultative Conference of the city of Ningbo, China. He became a father-in-law in June 2002.

Wendy Robbins is professor of English at the University of New Brunswick and vice-president, women’s issues, of the Canadian Federation for the Humanities and Social Sciences. For 2003-04 she will be a visiting scholar for CAUT (Canadian Association of University Teachers) to study the faculty wage gap and develop a collection of autobiographical essays on the founders of women’s studies across Canada.

1970
Mary Ellen Bacon Reisner’s 3rd book, The Measure of Faith: Annals of the Diocese of Montreal 1760-2000, was published in October 2002 by the Anglican Book Centre, Toronto, as part of the Diocese’s 150th anniversary celebrations, and a sister volume to Strangers and Pilgrims, A History of the Anglican Diocese of Quebec. (Dr. D.C. Masters, her faculty advisor at Bishop’s, introduced her to Church history. Although he knew this latest book was “in the works,” he died before it was completed. He had been a mentor to her two previous volumes and Mary Ellen was looking forward to his assessment of this one.)

1971
Noni Howard has set 5 Guinness Book of World Records: three for feats of strength not duplicated since 1982; one for creating a new life-saving heart operation and one for finding the world’s longest living snake (the female Anaconda in Venezuela — 33 feet, 345 lbs.). She received her MD specializing in surgery and psychiatry in 1981 in Guadalajara and her EDD. (doctor of education in sexology). She received honorary degrees from Madras, Calcutta, India and Frontier University in Canada in 2001. She continues to teach writing, medicine and see clients in the bay area near San Francisco. She is planning a second marriage to another woman. Any Bishop’s graduate is welcome to stay in Canada Cove.
Through the Years

Half Moon Bay on the Pacific (noni6@webtr.net).

Donald Languedoc is President of True North Adaptive Systems in Ottawa.

1973

Ab Echenberg is Financial Controller for PMA Canada Ltd. in Mississauga.

Looking for a Job?

The Bishop’s Employment Centre is proud to offer alumni and students access to Campus Worklink. Start your job search on the right track by logging on to www.campusworklink.com where you can access hundreds of jobs and internships, post your resume online, apply for employment opportunities, and research companies recruiting at Bishop’s. You can access these services 24 hours a day, 7 days a week, and best of all — it’s FREE!

Our institutional passcode is: gaiters.

Add your name to Bishop’s e-mail directory

Lost touch with a Bishop’s classmate, roommate, teammate, professor? When you register with Bishop’s e-mail directory, your name is added to the growing list of alumni who enjoy keeping in touch with old friends over the net.

Our e-mail directory is free for Bishop’s graduates. You can search the directory for a special friend or get a listing of all members of a particular class who have registered on our directory.

Only alumni and friends can access the directory, and there is even a private mail feature to hide your e-mail address from view if you wish. We’ll keep you up to date on what’s happening for Bishop’s alumni and friends — members of the directory will receive news of upcoming events in their region.
